## 2020.: People for people

- this is the logo of the Annual Report of the National Foundation for Civil Society Development for the year **2020**, which represents a stylised series of numbers 2-0-2-0.

The numbers thus stylised represent an infinite series of people, because it is precisely people who are the centre of this Annual Report. People 'from both sides', i.e. people working at the National Foundation and those working in associations and other organisations to which the National Foundation provides financial support (from its own grant programmes or as Intermediate Body Level 2 in managing ESI funds) which they use to implement activities for public benefit.

The year 2020 marks a special chapter in the development of the modern society because that was the year when **the world stopped**. The pandemic caused by COVID-19 separated us from the world we used to live in: accelerated, interactive, connected with other people, with globalised economy, seriously impaired biodiversity and sustainability of the planet we live on... In March 2020, the whole world brought to a halt entered a new mode of functioning: life with face masks and physical distance among people, and suspension of operations in numerous branches of economy.

In addition to the challenge caused by the COVID-19 pandemic, Croatia had to face a dual crisis because in March, and then in December last year, the city of Zagreb and the Zagreb, Karlovac and Sisak-Moslavina Counties were struck by a series of strong earthquakes that not only caused a great deal of material damage, but also left a large number of people homeless.

In those difficult moments, people exhibited their humanity and solidarity – they showed what great **People** they were.

Even in those difficult and challenging times, the National Foundation demonstrated its readiness to respond quickly and be flexible. Thus, already on 16 March 2020 decisions were made on reorganising the operations of the National Foundation's employees, digitalising procedures, and direct communication with all beneficiaries of the National Foundation's support, in order to provide clear instructions on new forms of activities and expeditiously disburse a part of the approved grant in order to preserve jobs, thus enabling operations to be continued under new, altered circumstances. The greatest achievement in our operations in 2020 was the continuity of support and innovative methods of finding new forms of support, such as the programme **Community Potentials**, which were used to respond in a timely manner to the crises caused by the COVID-19 pandemic and consequences of the earthquakes.

This Annual Report is dedicated to the people that made a difference in 2020, to those that work for a better world, to those that have the courage to dream, believe and act for other people and for public benefit.

We invite you to join us in your own way in bringing about positive changes that will help improve social and economic relations, but also resilience and self-sustainability of local communities. We believe that you will find additional inspiration to do so by reading this Annual Report of the National Foundation for 2020. Our contribution to the connection and synergy through different activities focused on the development and vision of achieving active citizenship in a modern, democratic, solidary and inclusive society, is represented in this Annual Report.

**Cvjetana Plavša-Matić, MS Econ.**  
Director

## Year of solidarity

The Annual Report of the National Foundation for Civil Society Development for 2020 has encompassed all the activities and achievements in the year that was in all aspects different and extremely challenging.

The COVID-19 pandemic and earthquakes have once again, as in all previous situations of crisis, demonstrated a high level of solidarity and care for those in our country who are most in need. A synergy of the activities of public services, from the Civil Protection and healthcare system to social welfare in complementarity with the activities of organised civil society in the field, have provided assistance and support to all who were in need.

Despite all the challenges in 2020, it is a pleasure to also see measureable indicators of change and the impact we have achieved through investments into **267** grants that made it possible to employ **682** persons, with a multiple effect on improving the quality of life of the citizens of our country, increasing the level of social capital, promoting and protecting human rights, preserving the environment, sustainable development, different ways of including excluded groups into the society, building the society's democratic institutions, developing social entrepreneurship, mitigating poverty and re-acknowledging the value of empathy and solidarity among people. Those activities involved 12,600 volunteers and 486,000 hours of volunteering. As Intermediate Body Level 2 (IB-2), through the contracted projects financed from the European Social Fund, the National Foundation monitored the implementation of projects for which in 2020 salaries were co-financed for **1,486** employees in civil society organisations and other legal entities, with over HRK 52 million.

It was a year of few physical meetings with beneficiaries, nevertheless, in compliance with all epidemiological measures, we did hold a meeting in Šibenik in June 2020, with the representatives of 35 CSOs involved in the 9 Centres of Knowledge for Social Development. Another activity was the launch of the initiative and new programme 'Community Potentials' which involved, through a structured questionnaire, **364 persons** from **88** local and regional self-government units who recognised, as change-makers, the need to work together and find new, innovative models of investing into the existing and finding new potentials in their communities, in order to make them resilient and enable a faster and easier recovery from the crises caused by the COVID-19 pandemic and the earthquakes. In March 2020, the National Foundation invited its beneficiaries to publish on all National Foundation's communication channels their stories of how, with a high level of solidarity, they helped the people affected by the earthquake, and despite the lockdowns due to epidemiological measures, made it possible to supply those in need with groceries and other necessities. The National Foundation also gave its contribution by making available its IMPACT – European Centre for Cross-Sector Partnerships in Zadar for the needs of quarantine for the truck drivers who transported food and other goods within Croatia and from abroad, thus allowing for continuity of supply. The IMPACT centre also provided accommodation to persons for which the Civil Protection Headquarters of the City of Zadar and of the Zadar County could not find another form of preventive self-isolation or isolation for persons infected by COVID-19.

I wish you a pleasant reading of this year's Annual Report of the National Foundation for the previous year in the hope that the coming years, those ahead of us, will bring about a more peaceful setting but also new opportunities for development and growth that will be based on the values of respect for and acknowledgement of differences, as well as preservation of nature and the environment.

# About

## The National Foundation

The National Foundation for Civil Society Development was founded by the Republic of Croatia under a *lex specialis*, the Act on the National Foundation for Civil Society Development, adopted by the Croatian Parliament on 16 October 2003, as a public foundation with the main purpose of promoting and supporting civil society development in the Republic of Croatia. The Foundation was registered on 24 November 2003 with the aim of providing professional and financial support to programmes promoting sustainability of the non-profit sector, cross-sector cooperation, civic initiatives, philanthropy and volunteering, and to programmes enhancing democratic institutions of the society.

According to the European and global classification, the National Foundation is a mixed public foundation engaging in grant-giving activities (Grant Giving Foundations), and in the operative part in activities in cooperation with other organisations (Operative Foundations).

The National Foundation is the leading public institution for cooperation, networking and financing of civil society organisations in the Republic of Croatia, which has held since 2006 the internationally recognised certificate HRN ISO9001:2008 for the management of the grant award system.

Through systematic investments in human potentials and developed internal communication, the National Foundation has built a competent team of creative, capable and motivated employees with whom it responsibly and transparently achieves the given objectives.

Adapting to the needs of development in Croatia and in Europe, the National Foundation conducts research and transfers the knowledge and information needed for the development of active citizenship and cross-sector cooperation.

By sound management of the foundation's assets and revenue from public sources of the Republic of Croatia and the European Union, as well as other revenue, the National Foundation develops and finances programmes for social development and civil society development in the Republic of Croatia.

### ———— Mission

The mission of the National Foundation is to promote and support civil society development in the Republic of Croatia.

### ———— Vision

With its activities, the National Foundation endeavours to achieve active citizenship in the development of a modern, democratic and inclusive society in the Republic of Croatia.

### ———— Objectives

1. Encouraging citizens to become active, get involved and take part in the development of the local community and society;
2. Building civil society's capacities for participation in social development;
3. Developing cooperation among CSOs and cross-sector partnerships;
4. Increasing visibility of CSO activities and their public influence;
5. Supporting social innovations and employment in the non-profit sector.

# Achievements alongside challenges

The year 2020 was an extremely challenging year in which the world, Croatia included, faced the global COVID-19 pandemic. Croatia had the additional challenge caused by the strong earthquakes in Zagreb in March and in Petrinja in December 2020. In spite of all the challenges, the National Foundation, in cooperation with civil society organisations, had achievements in 2020 that were recognised both locally and internationally, namely:

... made available all accommodation units and employees in IMPACT – European Centre for Cross-Sector Partnerships in Zadar, for the needs of quarantine for the truck drivers transporting goods within Croatia and to Croatia from other countries.

- Already on 16 March 2020, the National Foundation responded to the situation caused by COVID-19, and after that by the earthquake that had struck the city of Zagreb, by reorganising and digitalising its operations and by sending, to all CSOs – beneficiaries of the National Foundation’s grants, the protocol and instructions on the steps to be taken and on how to adapt their activities to the new situation caused by the COVID-19 pandemic and the earthquake. In order to organise uninterrupted and extremely important activities of grant beneficiaries in their respective local communities, the National Foundation expeditiously disbursed the 3-month instalment of the approved grant for all 267 civil society organisations;
- On 25 March 2020, recognising the need for expedited support to our healthcare professionals in facing the pandemic, the National Foundation in cooperation with partner companies enabled the manufacture and delivery of the first 1000 improvised but efficient visors for a hospital in Zagreb, subsequently followed by other Croatian cities;
- In order to provide for uninterrupted transport and distribution of food and other products, in late March 2020 in cooperation with the local Civil Protection Headquarters of the City of Zagreb, the National Foundation made available all accommodation units and employees in IMPACT – European Centre for Cross-Sector Partnerships in Zadar, for the needs of quarantine for the truck drivers transporting goods within Croatia and to Croatia from other countries. In the second half of the year, due to epidemiological measures to curb the spread of COVID-19 in the Zadar County, the IMPACT centre was mobilised and its accommodation units were used to accommodate 29 persons who were told they had to self-isolate;
- All crisis situations, including the COVID-19 pandemic, demonstrate the importance of sustainability of local communities, hence on 16 March 2020 the National Foundation launched the initiative “Unlocking community potentials for the post-COVID-19 era”, to which 364 persons from CSOs, the for-profit sector and local and regional self-government responded, offering their support and engaging in the creation of new models of resilience and sustainability for 88 local communities in Croatia encompassed by the initiative “Community Potentials”;
- Civil society organisations provided invaluable support to their beneficiaries and all members of local communities in which they are active, demonstrating a high level of solidarity and efficiency of operating in crisis and emergency situations. For that reason they readily responded to the National Foundation’s initiative “It’s important to have support – our stories” and “Our stories for wellbeing!”, through which they publicly presented what they had managed to do for those in greatest need. On the National Foundation’s website and the portals [civilnodrustvo.hr](http://civilnodrustvo.hr) and [zadobrobit.hr](http://zadobrobit.hr), the public was able to get acquainted with the contribution and activities of CSOs through more than 120 published stories on their activities, solidarity, assistance and achievements in the first 60 days of facing the pandemic and consequences of the earthquakes;

- The National Foundation's initiative "It's important to have support – our stories" served on the European level as a platform to evaluate and assess the most significant responses to the COVID-19 pandemic by CSOs in Croatia, and two organisations received a donation of € 10,000.00 from the 'EU Staff 4 Climate & COVID Relief' fund, which is managed through the Transnational Giving Europe (TGE) network by the Belgian member of the Network - King Baudouin Foundation;
- On 16 April 2020, the internationally recognised portal EUROACTIV published an article written by the Director of the National Foundation titled: "A letter from the frontline: Croatian civil society is facing a dual crisis", which in addition to presenting the solidarity and activities of CSOs in helping those in Croatia who are most in need, also emphasises the necessity for the European Union, as part of the measures it is planning to take to help people affected by the pandemic, to also take into account the needs of CSOs which have assumed a great share of the activities in remediating the consequences of the pandemic;
- In 2020, the National Foundation participated in the preparation of the virtual exhibition on the history of philanthropy in Croatia based on previously collected information/materials which were presented during the first Philanthropy Week in 2016, and the audio-visual material (short film on philanthropy) is available on all official online channels. A video was also made on philanthropy in Croatia, featuring a historical overview and short reviews by persons distinguished in their communities for their long-standing commitment to philanthropy;
- In March 2020, the National Foundation launched a new module of the digital and interactive reporting module within the computer programme Potpora\_Plus, i.e. electronic reporting by grant beneficiaries through the new module that enables user access through the www.financijskepodrske.hr platform, which implies direct entry of all relevant data related to the activities and cost of grant implementation, and thus also the generation of data related to grant monitoring;
- In cooperation with and with the financial support of the US Embassy in the Republic of Croatia, in 2020 the last digital training module was carried out with the topic 'Digital civil society and democracy' as part of the Academy for Philanthropy. The five training modules during 2019/2020 were attended by 94 representatives of the foundations involved in the Croatian Foundations Forum ZaDobroBIT!. The training was coordinated and implemented by 5 experts from the US with considerable international experience in foundations and philanthropy;
- In 2020, in cooperation with the European Foundation for Philanthropy and Social Development, the National Foundation prepared a video (film) on the possibilities of using the Transnational Online Giving Platform, in view of the fact that Croatia has joined this initiative together with 21 European states. In 2020 the director of the National Foundation, Cvjetana Plavša-Matić, presided over the international network Transnational Giving Europe;
- In 2020, in line with the epidemiological situation and all the relevant recommendations, for the first time in the 17 years of implementing calls, the National Foundation successfully organised and implemented 86 digital financial and programme pre-evaluations of CSO operations in line with the stipulated procedure for awarding institutional grants to the organisations short-listed for grant approval in 4 launched calls for institutional grant awards in 2020, which despite the challenges with the pandemic and the earthquakes were published right on schedule as announced in the calendar of publication of calls for 2020;
- In 2020, the National Foundation joined UN's initiative "Sustainable Development Solutions Network" and initiated the development of educational models for primary and secondary schools in line with the 17 sustainable development goals that provide a framework for recovery from COVID-19;

The National Foundation participated in the preparation of the virtual exhibition on the history of philanthropy in Croatia based on previously collected information/materials which were presented during the first Philanthropy Week in 2016.

## Achievements of the National Foundation as Intermediate Body Level 2 in managing grants from the European Social Fund:

In 2020, new steps were taken in launching and publishing calls for proposals within the European Social Fund. First of all, it should be highlighted that in 2020 two of the largest calls in the history of organised support to the development of CSO capacities were published:

Strengthening CSO capacities to popularise STEM, total call value up to

**HRK 150,000,000.00**

Strengthening CSO capacities to respond do the needs of the local community, total call value up to

**HRK 120,000,000.00**

Subsequent to the earthquake that struck the Sisak-Moslavina, Zagreb and Karlovac Counties in December 2020, group 3 was also added to the latter call, specifically intended for the organisations from those three counties.

In addition to these calls, two calls were also launched in the area of culture:

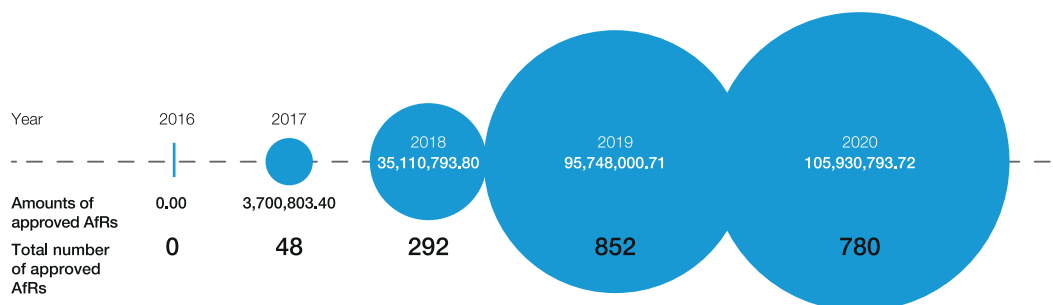

Arts and culture online, total value up to

**HRK 35,000,000.00**

Reading for inclusive society, total value up to

**HRK 41,000,000.00**

Despite the COVID-19 pandemic and earthquake, the high standard of both the number and amount of launched calls was maintained, especially because it was extremely important to strengthen segments of the calls in the context of the crises that had struck the world and the Republic of Croatia, and to adapt them to the new situation. The same applies to the mode of working and adapting to remote work, communication with friends and regular meetings. In accordance with the N+3 rule, the programming period may be used until 2023.

In 2020, the value of contracted projects amounted to HRK 438,538,079.89, i.e. 257 contracts were concluded to implement the projects approved in 8 different calls. The amount of the contracted projects is the highest amount ever contracted in the area of financing CSO capacity development, and compared to 2019 represents an increase of 710.47%.

All activities in the call procedures were carried out under considerably restricted conditions and in the period of adapting to remote work, disrupted communication and difficulties caused by the damage to the National Foundation where the EU programmes departments work.

The table presents all calls under which projects were contracted in 2020, as well as the amounts and number of contracts concluded per call. The table demonstrates that a large part of the calls published in 2019 came to the point of contracting and culminated with the highest ever amount of contracted funds in this area.

Number	Call code	Call name	Contracted grant amount (total)	Contracted projects (total)
1.	UP.02.2.2.10	Development and expansion of the network of non-institutional services for Croatian war veterans and civil victims of the Homeland War	51,153,121.21 kn	29
2.	UP.02.1.1.10	Community media – Support to social inclusion via the media, Phase I	15,000,000.00 kn	13
3.	UP.02.1.1.11	Fulfilling preconditions for successful implementation of national minority policies – Phase I	10,853,065.12 kn	1
4.	UP.04.2.1.06	Thematic networks for socio-economic development and promotion of social dialogue in the context of improving labour conditions	83,571,723.63 kn	31
5.	UP.04.2.1.07	Areas of participation – Development of programmes to revitalise publicly owned premises through partnership between CSOs and the local community	109,095,104.54 kn	62
6.	UP.04.2.1.09	"Join – Active in Retirement" Strengthening CSO capacities to improve the possibilities of active participation and social inclusion of retired persons	98,885,372.62 kn	64
7.	UP.02.3.1.03	Strengthening business operations of social entrepreneurs – Phase I- Group 1	55,398,733.78 kn	51
8.	UP.04.2.1.10	Strengthening CSO capacities to popularise STEM	14,580,958.99 kn	6

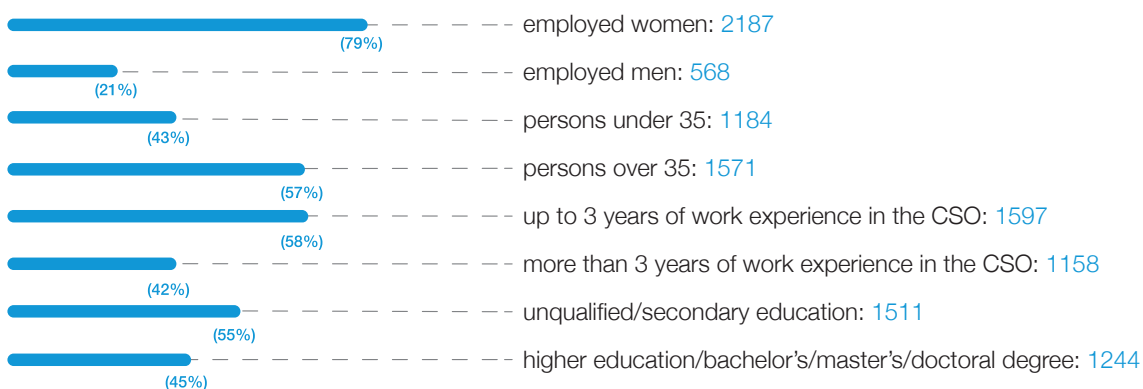

# Socio-economic effects of grants

## Volunteers and GDP

In the 267 grants implemented by civil society organisations in 2020, there were about 12,600 participating volunteers with approximately 486,000 hours of volunteering engagement. If these volunteering hours were put into an economically measurable framework at the price of an average hourly rate in the Republic of Croatia, this volunteering engagement would be worth about HRK 21,870,000.00, which amounts to a share of about 0.0059% in the GDP.

## Employees and payments to the state budget

The 267 grants approved by the National Foundation in 2020 were also used to finance the salary of 682 persons employed by CSOs, thus the contributions from the salaries of these persons accounted for about HRK 12,700,000.00 paid into the state budget. Employee structure in 267 supported organisations (a total of 2755 employees)

## Direct beneficiaries

267 grants in 2020 encompassed about 3,500,000 direct beneficiaries

## Sources of financing

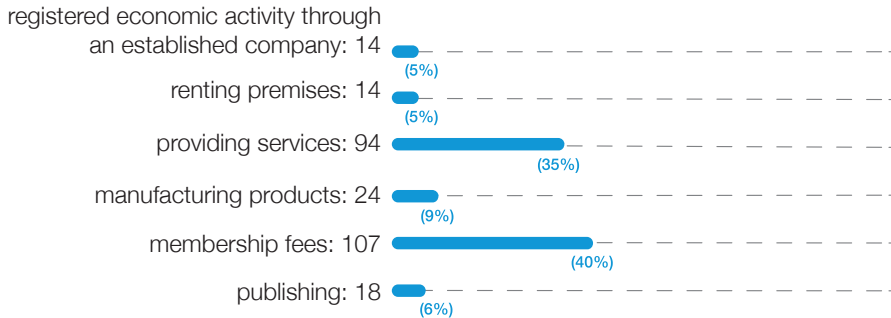

Among the total of 1,111 programmes/projects implemented in 2020 by 267 CSOs which were awarded institutional grants by the National Foundation, the structure of their sources of financing is as follows:

## Sustainability

Of the 267 organisations – beneficiaries of the National Foundation's grants in 2020, 101 (38%) did not and 166 (62%) did have developed self-financing related to generating revenue by performing activities, through\*:

\* Some CSOs have more than one model of self-financing

The collected data show that in 2020, CSOs generated funds amounting to approximately HRK 22,400,000.00 through the self-financing activities described above.

## Citizens' support

Of the 267 organisations – beneficiaries of the National Foundation's grants, 140 of them obtained citizens' donation in 2020 in the amount of approximately HRK 11,100,000.00

## Cross-sector support

Of the 267 organisations – National Foundation's grant beneficiaries, 151 received donations from the profit sector in 2020 amounting to approximately HRK 18,700,000.00

## EU funds

Of the 267 organisations – National Foundation's grant beneficiaries, 46 (17%) did not apply to EU calls in 2020, while 221 (83%) implemented 337 projects co-financed by EU funds in the value of approximately HRK 99,600,000.00. This suggests that CSOs receiving the National Foundation's grants attract 2-3 times more EU funding relative to the total resources invested in them through grants.

## Membership

Of the 219 CSOs – institutional grant beneficiaries, 130 (60%) increased the number of their members in 2020 and 89 (40%) did not.

Contribution of the  
National Foundation

**It's important to have:  
support!**

**17**

## Improvement of beneficiaries' capacities through grant implementation monitoring

In 2020, the National Foundation carried out 86 digital programme and financial pre-evaluations in CSOs from the entire territory of Croatia which through their activities contribute to democratisation and social development, and which were shortlisted for the approval of institutional grants in 4 calls published for the award of institutional grants in 2020.

During the implementation of approved multi-annual grants, the National Foundation conducts programme and financial evaluations of contracted grants implementation, and based on the results of the conducted evaluation, among other, bases are established for the extension or continuation of grant financing in the following year. Given the emergency situation caused by COVID-19 and the stipulated epidemiological measures, in 2020 there were 7 such evaluations carried out, which showed that the majority of CSOs had no difficulties in their work in terms of implementing the activities established in the strategic and operational plan, and of transparency of their operations, including the financial part of the implementation of approved grants.

In order to familiarise the beneficiaries of approved institutional grants with the method of grant implementation and efficient reporting, a workshop was held in January in Zagreb (before the start of the pandemic) for the beneficiaries of 81 grants approved in 4 calls published in August 2019 (for which grant implementation commenced in January 2020).

	2020	Approved amount (HRK)
Number of conducted pre-evaluations in 4 calls for institutional grants published in August 2020	86	//
Number of approved institutional grants in the calls of August 2020	83	14,528,581.00
Coverage	100,00%	100,00%

	2020	Amount (HRK)
Number of conducted regular evaluations for institutional grants	7	573,360.00
Number of institutional grants under implementation (first and second year of implementation)	159	24,102,356.00
Coverage	4,50%	2,40%

## Efficient investment from public sources

The National Foundation systematically evaluates the programme and financial part of the implementation of approved grants, with the aim of determining the efficiency of investments and the level of change occurring in the local community and the society due to grant implementation, in order to be able to adjust accordingly its priorities and approval process for grants through which it fulfils its basic purpose and mission.

Efficient investment from public sources is achieved through a systematic allocation procedure which includes:

- **Responding to questions related to applications to published calls**

(in addition to answering specific questions posed by e-mail by individual potential applicants, the most frequently asked questions and answers for every call are published on the website)

Number of published calls*	4
Number of questions posed and answers given	134
Number of days needed to cover the question and send the answer	1-2

- **Processing of call applications**

Number of published calls*	4
Number of received applications for published calls	258
Number of days needed for the committee to review the application (for all 4 calls)	5
Number of applications sent for assessment (applications meeting the stipulated requirements of the call)	222 (86%)
Number of days needed for application assessment	30
Number of applications to 4 calls for institutional grants which, according to the assessment score, were subjected to an online examination of programme and financial operations (online pre-evaluation)	86
Number of work days needed for online examination of programme and financial operations (83 online pre-evaluations)	20
Number of days from call publication (17 August) to publication of call results (9 December)	112

*\* In 2020, 4 calls were published for institutional grants (for CSOs active in the area of democratisation and social development, CSOs which had previously not used institutional grants, CSOs from the Homeland War active on the local level and CSOs of persons with disabilities active on the local level)*

- **Processing of requests to repurpose a part of the funds within the approved grants**

Number of grants under implementation in 2020	306
Number of received requests to repurpose a part of the funds ( <i>some beneficiaries submitted more than one request, while some did not submit any</i> )	674
Number of days needed to process the requests for repurposing	1-4

- **Processing of the reports on the implementation of approved grants**

(excluding quarterly/final reports for the period from 1 October to 31 December 2020, which the beneficiaries are obliged to submit by 20 January 2020)

Number of beneficiaries obliged to submit final reports (including final reports for 2019 which were received in January 2020)	265	Number of submitted and processed final reports (including final reports for 2019 which were received in January 2020)*	265
Number of beneficiaries obliged to submit quarterly reports (institutional grants and initial programme cooperation)	246	Number of submitted and processed quarterly reports	675
Number of beneficiaries obliged to submit quarterly reports (programme cooperation)	45	Number of submitted and processed four-month reports	90

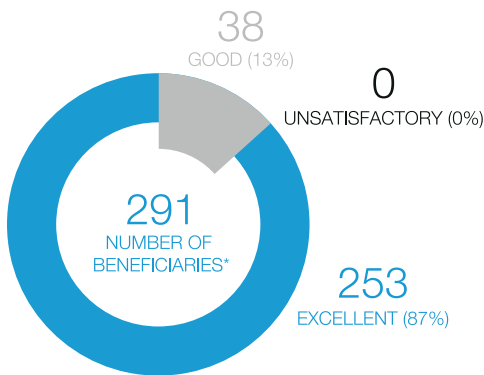

\* including reports of primary and secondary schools that were approved the "Heart Print" award with implementation in 2019/2020

Upon processing the final reports, the National Foundation requests a return of the funds paid for the implementation of the approved grants if it finds they have not been spent entirely for the implementation of the approved grant in accordance with the agreed specification of costs of grant implementation, which constitutes an integral part of the contract/agreement.

In 2019, the unspent funds and ineligible costs amounted to HRK 490,420.31 and were returned to the National Foundation's account by the respective beneficiaries.

	Amount (HRK)
Unspent funds in 2020	490,420.31
Total funds disbursed in 2020	45,865,927.34
Share of unspent funds in the total funds disbursed in 2020i	1.1%

## Beneficiary satisfaction

*\*data collected from 291 organisations – beneficiaries of the National Foundation's grants based on the final reports on grant implementation (including 24 institutional grants financed by the Ministry of Croatian Veterans, the implementation of which is monitored by the National Foundation for Civil Society Development)*

## Preservation of the environment

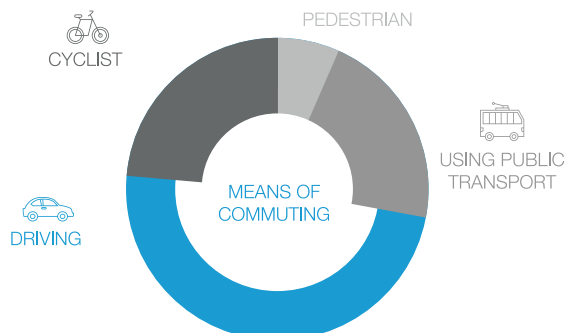

### • by streamlining operations

By introducing online applications to calls, and the submission of reports through the platform [www.financijskepodrske.hr](http://www.financijskepodrske.hr), it was made possible to generate the entire documentation in electronic/digital form, while the only thing submitted via regular mail on paper is the certified and signed document of application/report verification, however, due to the global pandemic, that part of the process was also done via e-mail. In 2020, in the National Foundation's 4 implemented calls, via the [www.financijskepodrske.hr](http://www.financijskepodrske.hr) platform (used by other public administration bodies as well), a total of 258 applications were received and forwarded in electronic form to members of evaluation bodies (five in each evaluation), and throughout the year a total of 1030 programme and financial reports were received on the implementation of approved grants, which in addition to the stipulated forms also comprise attachments documenting the activities implemented and approved funds spent (the data pertains to the final reports for 2019 which are received in January 2020 and to three-month periods (for institutional grants) and four-month periods (for programme cooperation) for 2020, but not to the final reports for 2020 which are received in mid-January 2021). This represents a major contribution to the preservation of the environment by not using paper documentation, since otherwise it would require cutting down young trees and wasting significant amounts of water for their processing, and would pollute the environment with a certain amount of oil. This contribution is all the greater because the portal [www.financijske.podrske.hr](http://www.financijske.podrske.hr) was upgraded with a new module allowing for electronic applications for participation in various events organised by the National Foundation.

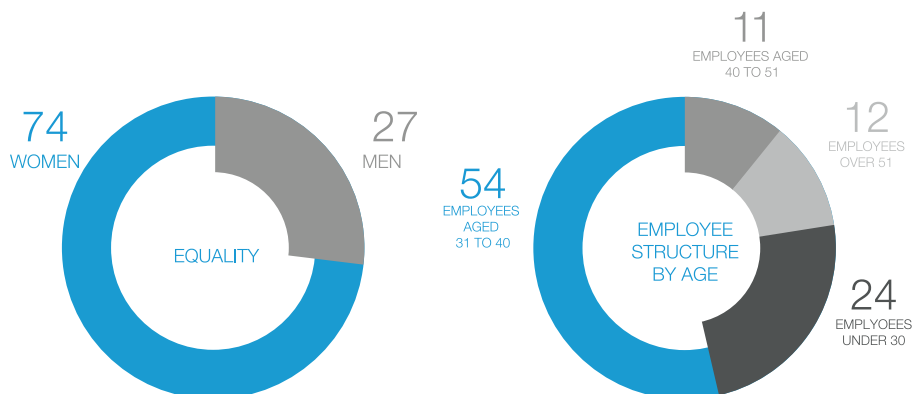

... throughout the year a total of 1030 programme and financial reports were received on the implementation of approved grants, which in addition to the stipulated forms also comprise attachments documenting the activities implemented and approved funds spent.

### • by the means of commuting

- equality

In managing positions (coordinators, sector managers, department managers, office managers, and the Management Board), the National Foundation employs 18 women and 9 men.

## Support in 2020

In 2020, the National Foundation for Civil Society Development ensured the continuity of implementation of 267 grants and activities related to democratisation and civil society development, organisational development (institutional grants), regional development, community development, centres of knowledge for social development and development of philanthropy, for which it disbursed funds in the amount of HRK 45,865,927.34.

In addition to the above, in cooperation with the Ministry of Croatian Veterans, in 2017 the National Foundation approved 24 institutional grants for CSOs from the Homeland War, 11 of which are active on the level of the Republic of Croatia and 13 on the county, city or municipality level, and the implementation of which was continued in 2020 (end of the third year of support which had started in 2019), for which the Ministry disbursed funds in the amount of HRK 959,885.20.

Number of implemented grants (or under implementation): 306\*

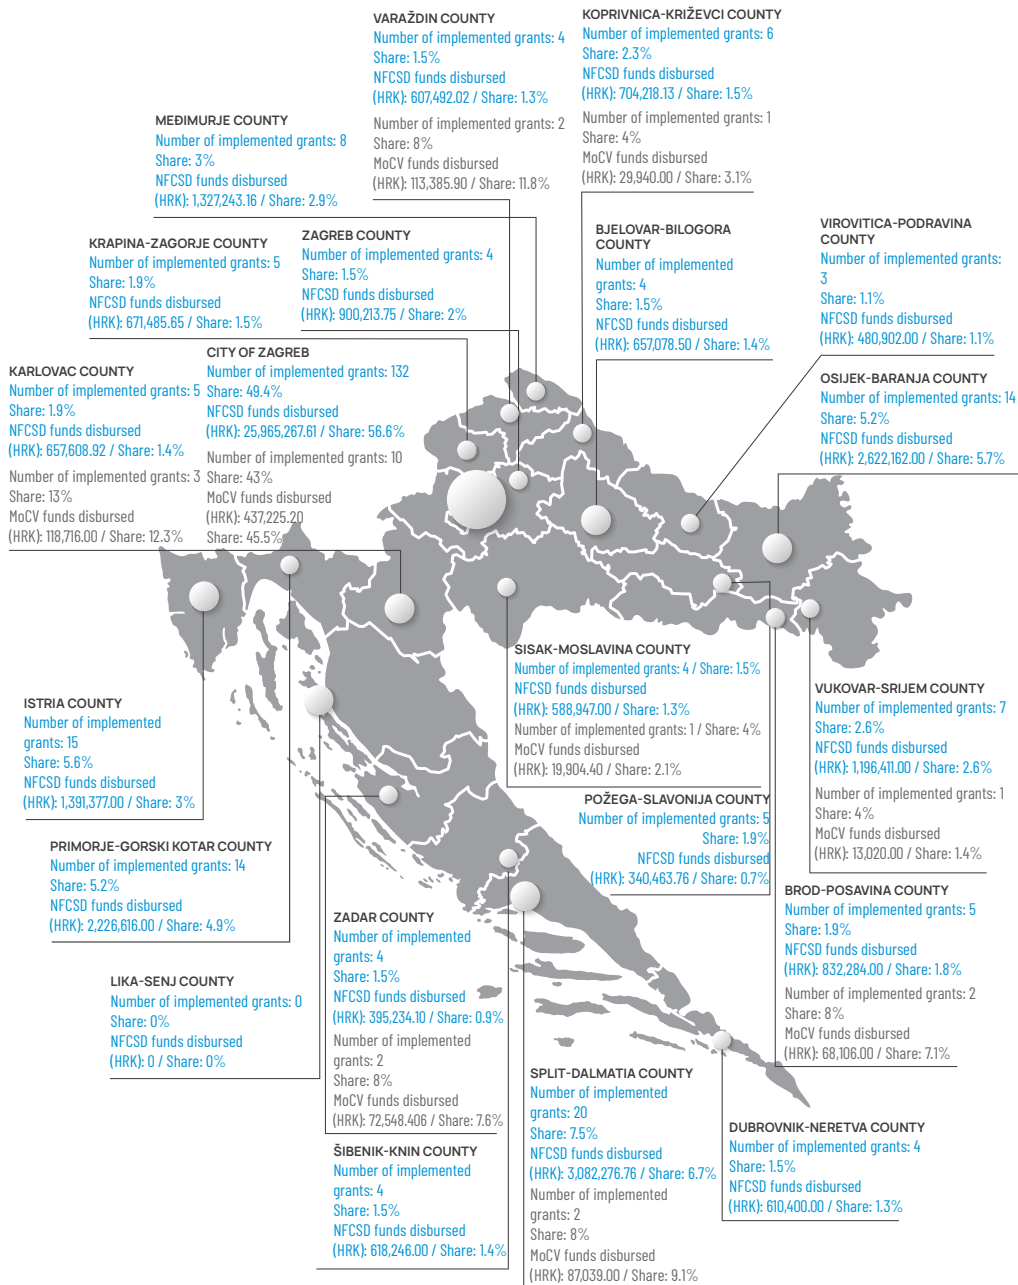

Funds disbursed: HRK45,865,927.34\*\*

\* including: 24 institutional grants to CSOs from the Homeland War financed by the Ministry of Croatian Veterans, where the National Foundation is in charge of monitoring grant implementation; 15 awards to primary and secondary schools granted and disbursed in 2019 and implemented in 2019/2020

\*\* not including funding by the Ministry of Croatian Veterans

**It's important to have: support!**

Grants of the National Foundation for Civil Society Development are awarded through public calls in accordance with the annual calendar of publication of calls for proposals and calls for expression of interest in cooperation, published in December of the current year for the following year and available on the National Foundation's website and publicly presented on Info Days. The National Foundation's grant allocation plan and calendar of publication of calls in 2020 was adopted at the Management Board session held on 5 December 2019.

The National Foundation's funds allocation plan and calendar of the publication of calls in 2020 was adopted at the session of the Management Board held on 5 December 2019.

All of the calls have specified objectives to be achieved through them and complete call documentation with the application criteria published. In addition to the call documentation, the evaluation form is also published for the applicants to know based on which criteria all of the applications are evaluated.

The applications that meet the basic stipulated criteria of the call are referred to evaluation by independent evaluation bodies the members of which independently evaluate applications through the computer programme Potpora\_Plus, which generates all the results of the evaluation and then ranks them by quality and by the score achieved. Best quality applications are approved for grant funding and conclusion of a financing agreement, followed by monitoring of the efficiency of their implementation.

A specific feature of the call for the allocation of institutional grants to CSO stabilisation and/or development is that it is carried out in two parts. In the first part of the call, all interested CSOs meeting the stipulated (technical) conditions can apply for institutional grants by 16 September 2020. The second part of the call commences with shortlisting CSOs in each institutional grant category, which shortlist includes those CSOs that have been assessed with the highest score, after which the National Foundation's professional staff evaluates the programme activities and financial operations of the CSOs. Taking into consideration this evaluation, the final assessment and ranking of applications are carried out, after which the decision on grant approval is made, the financing agreement is concluded, and implementation efficiency is monitored over a three-year period.

### Overview of the requirements to apply for institutional grants (4 calls in 2020)

Description of the most important call requirements		
Technical requirements	Application review by the committee	Promptness and efficiency with regard to legal obligations (by examination of the publicly available Register of Foundations and Register of Non-Profit Organisations)
		Revenues generated in the previous year
		Number of years in operation
		Number of employees
		Enclosed complete stipulated call documentation
Content requirements	Evaluating bodies (external experts) + examination of programme and financial operations (pre-evaluation)	Applicant's social impact and contribution to civil society development in Croatia and positive changes in the society in the respective area of activities
		Transparency of activities
		Applicant's financing from public sources
		Proactivity in attracting EU funds
		Cooperation with other relevant stakeholders

## Institutional grants - investment into CSO development

Institutional grants represent a specific part of the National Foundation's grants programme through which in a targeted manner, for a three-year period, investments are made into the organisational development or stabilisation of CSOs registered in the Republic of Croatia, with the aim of raising the level of sustainability of the CSOs contributing to democratisation and civil society development in the Republic of Croatia.

The year 2020 saw continued financing of institutional grants approved in the call published in February 2017 for CSOs which had not previously used the said form of the National Foundation's grants (continued implementation of the third year of support initiated in 2019), in the call launched in August 2017 (third year of implementation), in 4 calls published in August 2018 (second year of implementation), and the initiation of financing and implementation of institutional grants approved in 4 calls published in August 2019 (first year of implementation). Furthermore, in late December institutional grants were contracted subsequent to the 4 new calls launched in August 2020, the implementation of which is to commence in 2021 (overview by call in the last table).

Under the Agreement on Development Cooperation through programme grants in the implementation of systematic support to CSOs from the Homeland War, concluded with the Ministry of Croatian Veterans, the National Foundation continued to monitor the implementation of approved institutional grants for CSOs from the Homeland War following the calls from March and May 2017, for the CSOs active on the level of the Republic of Croatia (implementation of the third year completed on 30 June), and for CSOs from the Homeland War active on the county, town or municipality level (implementation of the third year completed on 30 June), for which the funds were secured by the Ministry of Croatian Veterans, while the entire call procedure and monitoring of the approved grants are under the purview of the National Foundation.

The year 2020 saw continued financing of institutional grants approved in the call published in February 2017 for CSOs which had not previously used the said form of the National Foundation's grants...

## Overview of institutional grants implementation in 2020 (number of grants, amount disbursed, implementation period)

Description	Number of grants implemented / under implementation	Year of call / approval	Amount disbursed in 2020 (HRK)	Three-year grant implementation period
Institutional grants in the area of democratisation and social development for CSOs which had not used the said type of grants in the previous periods (third year of implementation by 30 September)	28	2017.	1,497,707.14	1.10.2017. do 30.09.2020.
Institutional grants in the area of democratisation and social development (continuation of financing – third year of implementation)	32	2017.	5,785,643.00	1.1.2018. do 31.12.2020.
Institutional grants in the area of democratisation and social development (second year of implementation)	28	2018.	5,403,758.00	1.1.2019. do 31.12.2021.
Institutional grants in the area of democratisation and social development for CSOs which had not used the said type of grants in the previous periods (second year of implementation)	20		1,942,095.00	
Institutional grants to CSOs from the Homeland War (second year of implementation)	10		867,899.00	
Institutional grants to CSOs of persons with disabilities (second year of implementation)	20		2,031,479.00	
Institutional grants in the area of democratisation and social development (first year of implementation)	29	2019.	5,736,328.00	1.1.2020. do 31.12.2022.
Institutional grants in the area of democratisation and social development for CSOs which had not used the said type of grants in the previous periods (first year of implementation)	23		3,484,254.00	
Institutional grants to CSOs from the Homeland War (first year of implementation)	8		933,138.00	
Institutional grants to CSOs of persons with disabilities (first year of implementation)	21		3,703,405.00	
Institutional grants to CSOs from the Homeland War active on the level of the Republic of Croatia (third year of implementation by 30 June)*	11	2017.	461,186.80*	1.7.2017. do 30.06.2020.
Institutional grants to CSOs active on the county, city or municipality level (third year of implementation by 30 September)*	13	2017.	498,698.40*	1.10.2017. do 30.09.2020.

## Overview of institutional grants implementation in 2020 (indicators of CSO stabilisation/development)

Description of indicators	Funding by the National Foundation			Funding by the Ministry of Croatian Veterans
	CSOs in the 1st year of implementation	CSOs in the 2nd year of implementation	CSOs in the 3rd, last year of implementation	3rd year of implementation
Number of institutional grants / CSOs	81	78	60	24
Number of employees (status at the time of application – depending on grant category)	914	639	302	15
Number of employees in 2020	988	814	557	64
% increase/reduction in the number of employees in 2020 compared to the status at the time of application	+8%	+27%	+84%	+327%

Description of indicators	Funding by the National Foundation			Funding by the Ministry of Croatian Veterans
	CSOs in the 1st year of implementation	CSOs in the 1st year of implementation	CSOs in the 3rd, last year of implementation	3rd year of implementation
Number of institutional grants / CSOs	81	78	60	24
Number of most important projects/programmes described in the application (status at the time of application – depending on the grant category)	257	246	198	75
Number of most important projects/programmes implemented in 2020	261	258	204	80
% increase/reduction in the number of projects/programmes in 2020 compared to the status at the time of application	+1,5%	+4,8%	+3%	+7%

Description of indicators	Funding by the National Foundation			Funding by the Ministry of Croatian Veterans
	CSOs in the 1st year of implementation	CSOs in the 2nd year of implementation	CSOs in the 3rd year of implementation	3rd year of implementation
Number of institutional grants / CSOs	81	78	60	24
Generated CSO revenue in the year prior to institutional grant approval (status at the time of application – depending on the grant category)	100,839,000.00	60,700,000.00	49,800,000.00	5,500,000.00
Revenue generated in 2020 (CSOs' estimates because at the time of final reports submission, the CSOs' annual financial reports were not yet completed/ submitted)	122,900,000.00	107,400,000.00	70,050,000.00	6,900,000.00
% increase/reduction in revenues in 2020 compared to the status at the time of application	+22%	+76%	+41%	+25%

Description of indicators	Funding by the National Foundation			Funding by the Ministry of Croatian Veterans
	CSOs in the 1st year of implementation	CSOs in the 2nd year of implementation	CSOs in the 3rd year of implementation	3rd year of implementation
Number of institutional grants / CSOs	81	78	60	24
Number of CSOs active in the preparation of EU projects (status at the time of application)	72	58	48	3
% CSOs active in the preparation/implementation of EU projects (status at the time of application)	89%	74%	79%	13%
Number of CSOs applying to EU calls in 2020	63	59	57	9
% CSOs active in preparing EU projects in 2020*	78%	75,5%	95%	37%
% increase/reduction in the number of CSOs active in the preparation of EU projects in 2020 compared to the status at the time of application*	-11%	+1,5%	+16%	+24%

\* the reason for a reduction in the number of CSOs active in the preparation of EU projects in 2020 compared to the status at the time of application is either a) implementation of previously contracted multiannual EU projects, or b) lack of published calls for certain programme areas related to the CSOs' activities

## Overview of institutional grants implementation in 2020 (indicators of activity implementation)

Description of indicators	Total for the grants financed by the National Foundation (1st, 2nd and 3rd year of implementation)	Total for the grants financed by the Ministry of Croatian Veterans (3rd year of implementation)
number of implemented institutional grants	219	24
number of CSO employees (as at 31.12.2020)	2.359	64
number of co-financed salaries	546	22
number of direct beneficiaries	2.961.817	104.529
number of involved volunteers	11.061	671
number of media releases	17.758	350
number of posts on CSOs' websites/social networks	60.390	1.474
number of visits to CSOs' websites	10.334.136	499.506

## Overview of approved institutional grants in 2020 (in 4 calls launched in August 2020, with implementation starting on 1 January 2021)

Description	Number of approved grants	Year of call/ approval	Approved amount (HRK)	Three-year grant implementation period
Institutional grant in the area of democratisation and social development (implementation starting from 1 January 2021)	30	2020.	5,559,787.00	od 1.1.2021. do 31.12.2023.
Institutional grant in the area of democratisation and social development for CSOs which had not used the relevant type of grants in the previous periods (implementation starting from 1 January 2021)	20		3,282,124.00	
Institutional grant to CSOs from the Homeland War (implementation starting from 1 January 2021)	15		2,500,617.00	
Institutional grant to CSOs of persons with disabilities (implementation starting from 1 January 2021)	18		3,186.053.00	
<b>TOTAL</b>	<b>83</b>

# Regional development

By providing systematic support in the area of information, consultations and training on the local and regional levels, the National Foundation contributes to the harmonisation of regional development and CSO and civil initiatives' capacities.

Since 2007, through partnership with 5 regional specialised networks, the National Foundation for Civil Society Development has been implementing the regional development programme to strengthen the capacities of CSOs and other legal entities in the region of Dalmatia, central Croatia, northwestern Croatia, western and eastern Croatia. By providing systematic support in the area of information, consultations and training on the local and regional levels, the National Foundation contributes to the harmonisation of regional development and CSO and civil initiatives' capacities.

During 2020, the regional development programme was continued in modified form through the digital environment given the pandemic and the necessary protective measures. The programme is implemented with five partner organisations from Osijek, Split, Zagreb, Rijeka and Čakovec through the provision of services that strengthen CSO capacities in cooperation with the central support units and regional branches of the National Foundation, and in 2020 the programme was implemented in cooperation with five partner organisations: MI Association, Split; Association for Civil Society Development SMART, Rijeka; Volunteer Centre Osijek (DKolektiv - association for social development); Centre for Civil Initiatives, Zagreb and ACT grupa, Čakovec. The programme is focused on providing information, consultations and training to CSOs in order to contribute to their professionalism and performance.

The regional development programme includes the following training programmes:

- Project cycle management and assessment of needs in the local community
- Volunteer management
- Quality system in civil society organisations with examples of efficient management models
- Quality assurance in the implementation of projects financed from public sources
- Innovative fundraising models for CSO activities
- Advocacy models for positive changes in the local communities
- Models of citizens' engagement in the work of CSOs
- How to develop a strategic and operative plan for a CSO
- Social capital development in the local community and partnership/cooperation models for CSO in the community
- Models of internal and external evaluations of CSOs' activities/programmes

This way, the partner organisations in the implementation of the regional development programme are tasked with providing support to civil society organisations in the local communities, and also with providing support to the applicants to EU funds. Given that 2020 was a challenging year in view of the coronavirus pandemic, the civil society regional development programme was, unlike in the previous years of implementation, mostly implemented in the digital sphere using various online platforms. The type of content offered by training changed in terms of quality and quantity and was adapted to the new work mode due to the need for a more efficient evaluation and transfer of knowledge. In a part of the organisations involved in the programme implementation, an increased level of interest among the beneficiaries, i.e. CSOs was noted for the use of training and consultation services relative to the previous years. Furthermore, the digital format of regional programme implementation made it possible for CSOs from more isolated parts of Croatia, such as the islands, to participate, with the programme thus covering a broader scope of organisations.

## Programmes in regions

**ACTGRUPA**

In 2020, as part of the regional development programme, the partner organisation ACT grupa held 14 workshops with a total of 270 participants, while consultation services were provided to 58 representatives of CSOs. In compliance with the recommendations on the prevention of further spread of the COVID-19 pandemic, a part of the planned training activities within the programme was held in the digital setting, which ultimately resulted in increased interest in the workshops among beneficiaries, with the highest attendance reported for the digital workshop on the subject of 'Projects are not the only/real source of financing', attended by 56 participants. The organisation's network was visited by 13,000 individual visitors, and there were 61 media releases on its work. A significant result in 2020 for ACT grupa is the establishment of a new structure and processes for better management of the organisation, which was implemented during the year and helped avoid a more significant impact of the COVID-19 crisis on the organisation's overall operations.

For the counties: Medimurje, Krapina-Zagorje, Koprivnica-Križevci, Varaždin

During 2020, DKolektiv – association for social development (formerly Volunteer Centre Osijek) as a partner organisation, despite all the obstacles related to the pandemic, implemented a total of 10 workshops with 197 direct beneficiaries. The digital workshop on the subject of 'How to develop a strategic and operative plan for a CSO?' had the highest attendance, with 44 participants, and was implemented via the BlueJeans online platform. Due to the adaptation to a new way of transferring and facilitating knowledge, the workshops were shorter in duration than in the previous year, but because of that required higher engagement in terms of human resources and were altered in terms of content for the participants to receive content of equal quality as before. In 2020, the organisation changed its name from Volunteer Centre Osijek to DKolektiv – association for social development, which is why there was an increased number of activities related to the visibility and management of the new identity. In that regard, the organisation's website recorded 34,253 individual visits, while the media featured 93 releases on the organisation's work, and on its social networks and website the organisation published 103 news items.

For the counties: Osijek-Baranja, Vukovar-Srije, Požega-Slavonija, Brod-Posavina

MI Association – During 2020, this partner organisation held 10 workshops in the digital setting, which were for that purpose adapted to the new mode of implementation due to the circumstances caused by the pandemic, and there was a noticeable increase in the number of beneficiaries compared to the previous years, hence the regional development programme included 315 direct beneficiaries, with the highest attendance reported for the workshop on the subject of 'Ensuring quality implementation of projects financed from public sources' with 75 participants. During 2020 through programme implementation, the organisation provided consultation services focused on increasing the capacities of CSOs and regional communities, as well as on empowering beneficiaries to withdraw funds and informing them on the possibilities of financing from EU or national/regional/local sources. In terms of visibility, the interactive e-mail list was systematically updated, and an online forum intended for civil society was also used, while the organisation had 118,856 visits to its website, where it published 200 news items, while the number of media releases related to the organisation's activities was 45.

For the counties: Split-Dalmatia, Šibenik-Knin, Zadar, Dubrovnik-Neretva

For the counties:  
Zagreb and the City  
of Zagreb, Sisak-  
Moslavina, Bjelovar-  
Bilogora, Virovitica-  
Podravina

**cci**  
**CENTAR ZA**  
**CIVILNE**  
**INICIJATIVE**

Centre for Civil Initiatives – With the implementation of the regional development programme throughout 2020, the partner organisation Centre for Civil Initiatives held 10 workshops with a total of 187 beneficiaries, also providing 84 consultation services to representatives of CSOs, foundations and artistic organisations. Training and consultation services were mostly carried out in the digital setting, and the largest number of interested beneficiaries participated in the workshop on the subject of 'Volunteer management', with 25 participants, which was provided on the Zoom platform. Although the altered mode of holding workshops has its disadvantages, it did enable CSOs from very distant regions to participate in the regional development programme, which contributed to engaging a larger number of volunteers in the work of those organisations, as well as of local self-government units in their financing, while at the same time good cooperation was achieved among the beneficiaries after the workshops. The organisation's website was visited by 5,434 individual visitors, there were 83 posts on it, and 5 releases in the media on the work of the organisation.

For the counties:  
Primorje-Gorski Kotar,  
Istria, Lika-Senj,  
Karlovac

**PRIPREMA**  
**POZOR**  
**SMART**

Association for Civil Society Development – SMART – In 2020, as part of the regional development programme, the partner organisation Association for Civil Society Development SMART organised 10 workshops with a total of 156 direct beneficiaries, with the highest number of participants in the workshop on the subject of 'How to develop a strategic and operative plan for a CSO?' with 24 beneficiaries, which was held on the Zoom digital platform. Despite the challenges caused by the COVID-19 pandemic, in 2020 the organisation successfully carried out all planned activities and adapted its work, which implied a new approach in the work related to the programme implementation which was focused on the new implementation method via digital tools. A large share of the activities during the said period was related to consultations and information for civil society organisations in terms of crisis volunteering, for the needs of which research of needs and the current situation among volunteering organisers was conducted. During 2020, the organisation's website had 12,973 visits, and there were 39 articles published on it.

Number of persons with co-financed salaries: **17**

Number of direct beneficiaries: **1.243**

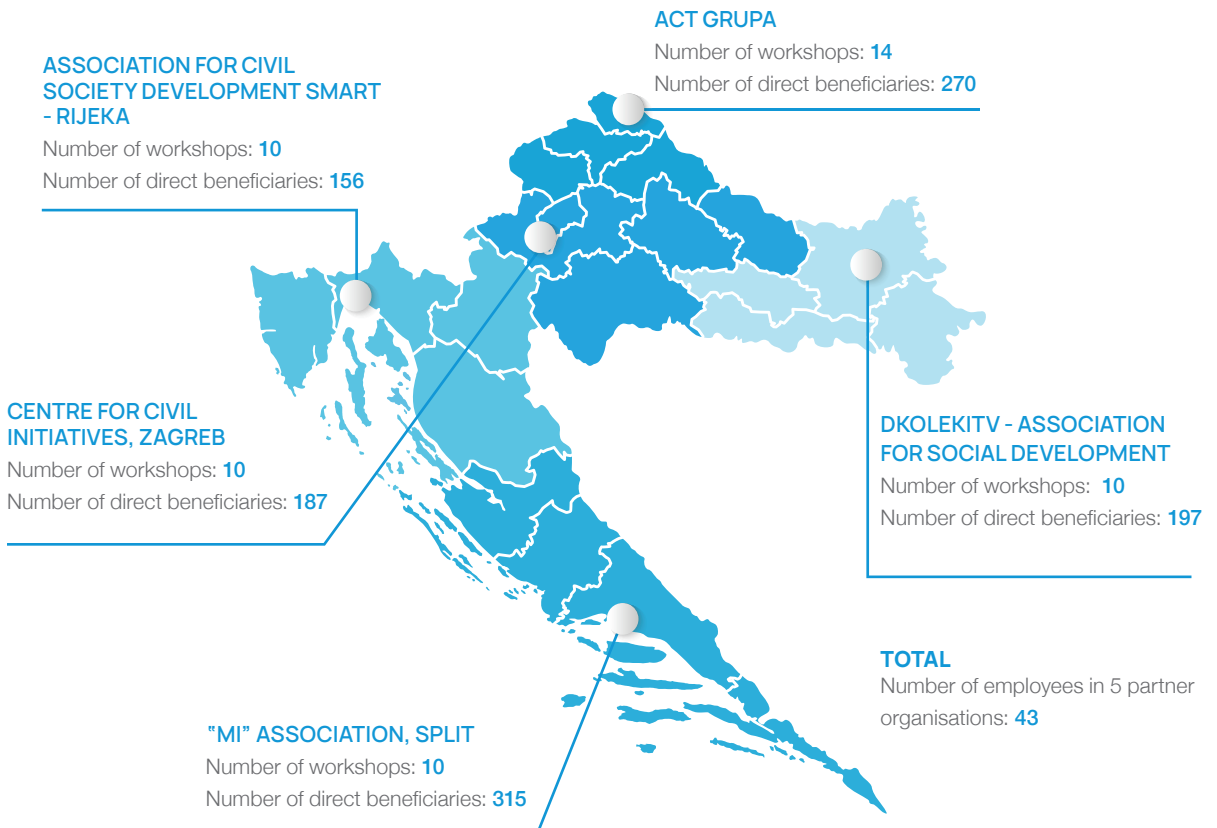

Number of engaged volunteers: **32**

Number of media releases: **203**

Number of posts on partner organisations' website/social networks: **581**

Number of visits to partner organisations' websites: **184.516**

Regional development programme implementation in 2020  
(for all 5 partner organisations)

## Active in the community

Programme cooperation in the area of support for civil society organisations and local communities called “Active in the Community”, has been implemented through partnership with four partner foundations: Community Foundation Slagalica; Regional Foundation for Local Development “Momentum”; “Kajo Dadić” Foundation Split, and the Foundation for Partnership and Civil Society Development.

The programme is implemented through financing, creating professional and technical preconditions, establishing the area and type of activity, and constantly improving and training actors and all participants in the Programme implementation, while the National Foundation, in cooperation with partner foundations, provides for programme harmonisation and integrity on the entire Croatian territory, in order for the same type of activities to be implemented in all counties and involved local communities.

Partner foundations develop activities in the field of:

In the challenging 2020 marked by the COVID-19 pandemic, organisations carried out a part of their activities, unlike in the previous years, in the digital setting via available online platforms...

In the implementation of these activities, in 2020 each of the partner foundations encompassed at least 10 local communities in which discussions were held on social capital development, and an analysis (mapping) was conducted of the state of affairs in terms of social capital development, with recommendations for further improvements. Based on these analyses, the partner foundation in cooperation with local communities designed and implemented models to develop the culture of giving for public benefit and for fundraising for identified needs in the local community, by connecting citizens, civil initiatives, CSOs and all other stakeholders in the local community and their joint action. Finally, the partner foundations in cooperation with all the stakeholders implemented, based on the previously implemented fundraising models, social programmes that were financed by the raised funds.

In the challenging 2020 marked by the COVID-19 pandemic, organisations carried out a part of their activities, unlike in the previous years, in the digital setting via available online platforms, primarily in terms of training, analysis of the current state of affairs in the civil society, and development of recommendations, while civil initiatives and initiatives related to the development of the culture of giving were mostly carried out live in compliance with all epidemiological measures. For that reason, some of the originally planned activities in the area of social programmes in local communities were carried out in a somewhat reduced and modified scope.

### Regional Foundation for Local Development "Momentum" - Zagreb

For the counties: City of Zagreb and Zagreb, Međimurje, Koprivnica-Križevci, Varaždin and Bjelovar-Bilogora

### Community Foundation Slagalica - Osijek

For the counties: Osijek-Baranja, Vukovar-Srijem, Požega-Slavonija, Brod-Posavina and Virovitica-Podravina

### Foundation for Partnership and Civil Society Development - Pula

For the counties: Istria, Primorje-Gorski Kotar, Karlovac, Sisak-Moslavina and Krapina-Zagorje

### Kajo Dadić Foundation - Split

For the counties: Split-Dalmatia, Šibenik-Knin, Zadar, Lika-Senj and Dubrovnik-Neretva

### Active in the Community programme implementation in 2020 (for all 4 partner foundations)

	Total
number of employees in 4 regional partner foundations	16
number of persons whose salary was financed	12
number of direct beneficiaries	1.154
number of involved volunteers	238
number of media releases	259
number of posts on foundations' websites/social networks	459
number of visits to foundations' websites	72.087

## Centres of Knowledge for Social Development

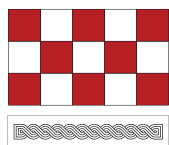

In development cooperation in the area of Centres of Knowledge for Social Development in the Republic of Croatia, in 2020 the National Foundation had 9 Centres of Knowledge involved in the following areas:

KUĆA LJUDSKIH PRAVA ZAGREB  
Članica Human Rights House Network

ZELENA MREŽA AKTIVISTIČKIH GRUPA

- social inclusion and reduction of poverty
- protection and promotion of human rights
- civic activism and development of democratic institutions in the society
- youth activities
- independent culture
- environmental protection, sustainable development and use of renewable energy sources
- sustainable living and development of permaculture
- enhancement of the quality of life of persons with disabilities

(Croatian Union of Associations of Persons with Disabilities, Croatian Blind Union, Croatian Association of the Deaf and Hard of Hearing, Association of Multiple Sclerosis Societies of Croatia, Croatian Muscular Dystrophy Association, Croatian Union for the Deafblind Persons "Dodir", Croatian Paraplegic and Tetraplegic Association, Croatian Union of Associations of Physically Disabled Persons, Croatian Cerebral Palsy Association, Croatian Union of Societies of Disabled Workers, Croatian Association of Societies of Persons with Intellectual Disabilities, Croatian Union of Associations for Autism, Association of War Disabled Civilians in Croatia)

- enhancement of the quality of life of Croatian war veterans and civil victims of the Homeland War

(Alliance of County Associations of Croatian Disabled Homeland War Veterans HVIDRA, Association of Croatian Homeland War Volunteers, Association of Volunteers and War Veterans of the Croatian Homeland War, Association of Homeland War Veterans INA-NAFTAPLIN "KVIN", Union of Associations of Civil Victims of Croatian Homeland War, Association of Children of Fallen and Missing Croatian Homeland War Veterans, Association of Special Police Unit from the Croatian Homeland War, Union of Associations of Families of Imprisoned and Missing Croatian War Veterans, Community of Associations of Croatian War Veterans Treated for PTSD, Association of Veterans of the 4th Guards Brigade, Croatian Officers Association – Community of Associations, Association of Veterans of the 5th Guards Brigade Sokolovi (The Falcons), The Bojna Frankopan Association, Assembly of Associations of Croatian War Veterans' Guards Units, Association of War Veterans and War Police Veterans from the Homeland War)

Through development cooperation with the National Foundation, the Centres of Knowledge implement:

- research and analysis of public policies in the area of activities;
- transfer of specific knowledge in the Republic of Croatia and in the countries of Southeast Europe;
- development of social potentials;
- advocacy for positive social change.

The most significant activities of the Centres of Knowledge in 2020:

### Environmental protection, sustainable development and use of renewable energy sources

In January 2020, the Centre of Knowledge in the area of environmental protection, sustainable development and use of renewable energy sources organised a conference titled “30 years of activism, resistance and change”, on the occasion of its 30th anniversary. In 2020 the Centre of Knowledge also continued with an intensive campaign against the adoption of the General Urban Plan (GUP) due to the numerous detrimental provisions related to the environment, which resulted in its repeal aided by a protest organised by the Green Action, which had gathered 20,000 people.

The programme of this Centre of Knowledge titled Green Phone, a service for information on and reports of environmental issues, in 2020 received 1672 reports and questions related to environmental issues, the majority of which were related to waste management. In that regard, they continued with the campaign “Zagreb – The European Capital of Waste” and implemented a series of activities within the framework of advocacy campaigns for better waste management policies. They continued to develop actively the Facebook platform Zero Waste Croatia Network, on which they inform citizens on a daily basis on how to reduce waste, good practices, success stories of cities and municipalities, but also on detrimental projects planned in the Republic of Croatia and beyond.

Despite the COVID-19 pandemic and in compliance with epidemiological measures, Biciklopopravljara, a unique bike repair shop, continued with its activities and in 2020 repaired 304 bikes and restored and donated 119 bikes, mostly to persons of poorer material status.

Members of the Centre of Knowledge actively participated in the work of the Council for GMO, SEE NET network as well as in the working bodies for waste management for international networks such as Zero Waste Europe, Rethink Plastic Alliance, Break Free from Plastic Movement, Friends of the Earth Europe, IPEN, and the European Environmental Bureau. In addition to the above, they were very active in advocating for positive social change in the area of their activity by organising drives, protests, forums, round tables, but also by conducting analyses and through media communications.

In 2020 the traditional Eco seminar was held in digital format, with the aim to educate and inform citizens on the issues of sustainability and environmental protection, and to foster critical thinking and action, with the help of 9 recorded lectures on the most important aspects of environmental protection. Furthermore, the 7th Environmental Film Festival was held, and the manual titled “Services and masters – Challenges and recommendations for participatory management of utility services” was developed. In cooperation with the initiative “People for People”, in 2020 as part of the charity campaign “Ray of sun – light of hope”, the Centre of Knowledge installed electricity via solar systems to six households in Croatia which had previously not had access to electricity.

### Civic activism and development of democratic institutions in the society

During 2020, the Centre of Knowledge for Social Development in the area of civic activism and development of democratic institutions in the society continuously monitored the work of fundamental political institutions and other public, autonomous and independent bodies. The implementation of the Centre’s activities was rendered much more difficult due to the epidemiological measures and restrictions in terms of gathering, primarily in terms of the implementation of educational activities through workshops, training, but also in terms of information activities. However, at the same

The programme of this Centre of Knowledge titled Green Phone, a service for information on and reports of environmental issues, in 2020 received 1672 reports and questions related to environmental issues, the majority of which were related to waste management.

Contributions were made to the struggle against disinformation as well as the promotion of verified information in the public sphere by regular fact-checking, which was of great importance in the times of the global pandemic.

time a possibility opened up to discuss updates on the topics of: human rights, transparency and governance quality, in the context of citizens' privacy risk because of the monitoring of compliance with epidemiological measures as well as advocating for a more active role of the Croatian Parliament in deciding on the measures as such, their scope, duration and adoption procedures. Educational activities of the Centre of Knowledge were carried out primarily for teachers, youth, as well as the civil society and other interested target groups, with the training carried out both live and via the learning platform Thinkfic and through the pre-structured modules of media and political literacy, and the sub-module on digital literacy.

As early 2020 was marked by the second round of elections for the President of the Republic of Croatia, the Centre of Knowledge observed the elections, supervised the work of the competent authorities and election processes, provided information to the voters, and throughout the year contributed to the discussion on the necessary improvements of the legislative framework for the implementation of elections and referendums with emphasis on the transparency of election campaign financing, reform of the election and referendum legislation, and in particular on raising awareness of the problematic disproportion of constituencies. In addition to the above, the deficiencies of the voting procedure were highlighted, as they threatened to discriminate persons in self-isolation and those infected by COVID-19.

Further development of the online portals MozaikVeza, Parlametar, ImamoPravoZnati and Faktograf helped increase transparency of the work of legislative institutions, tools were created to combat corruption and citizens' right to information was facilitated, and contributions were made to the struggle against disinformation as well as the promotion of verified information in the public sphere by regular fact-checking, which was of great importance in the times of the global pandemic.

Members of the Centre of Knowledge were active in the work of the Council for the Prevention of Corruption, Statistical Council of the Republic of Croatia, Partnership for Open Government, and the Council for Civil Society Development, within which they could directly influence the adoption of public policy, while in the area of cooperation they continued networking with civil society organisations in Croatia and EU, trade unions, employees of public institutions and investigative reporters, civil "hacktivists". In all of this of special note is the cooperation of the Centre of Knowledge with CroSol – Croatian Platform for International Citizen Solidarity, GOOD initiative, European Civic Forum, and the networks ENEMO and ALTER EU.

## Social inclusion and reduction of poverty

During 2020, the Centre of Knowledge for Social Development in the area of social inclusion and reduction of poverty carried out a series of programmes, projects, campaigns, workshops, forums and public drives in which it cooperated with all relevant stakeholders in the area of social welfare, education, justice, police on the local and national level, as well as with the authorities in terms of cooperation with the local and regional self-government, while via social networks, the activities of the Centre of Knowledge were visible to the public, which resulted in active engagement of volunteers.

In the said period, via social networks the Centre of Knowledge promoted the publication Udarac (Blow), a record of the professional, activist, and volunteer engagement of the Centre of Knowledge in preventing risky behaviour of youth and suppression of violence against youth. Moreover, having realised that citizens do not have a clear idea of the services that exist or of whom and when they can address for help, they developed and publicly presented at the conference titled "Poverty in urban spaces" the first Social Healthcare Map of the city of Split, which provides the basic information on the institutions, establishments and civil society organisations operating in that domain. The map is a result of the processing and updating of data on the services provided in the city of Split and which are, pursuant to the Social Welfare Act, focused on different beneficiary groups.

In 2020, the Centre of Knowledge celebrated 20 years from the opening of the Homeless Centre in which they provided for over 2000 persons without a home, organised thousands of larger and smaller donation drives, and included thousands of volunteers from the territory of the city and the county in different activities and projects. They launched a whole series of programmes, projects, first housing community, first social supermarket, first National Meeting on the Homeless, initiated the establishment of the Croatian Homeless Network which gathers nearly all organisations dealing with the issue of homelessness in Croatia. All of the services were adapted to the needs of the homeless, and they also provided the services of social inclusion, half-day stay, social supermarket and field work.

The internationally recognised initiative of the National Foundation “It’s important to have support – our stories” and the initiative of the European Foundation titled “Our stories for wellbeing” served as a platform to evaluate and assess the most significant responses to the COVID-19 pandemic by CSOs in Croatia, and thus the activities and responses of the Centre of Knowledge to the crisis were recognised with respect to their importance and timely response of charity and solidarity towards the most vulnerable in the Republic of Croatia. In that regard, the Centre of Knowledge, as one of the two chosen CSOs, received a valuable donation of about € 10,000 from the Fund ‘EU Staff 4 Climate & COVID Relief’, managed through the Transnational Giving Europe (TGE) network by the Belgian member of the network – King Baudouin’s Foundation, in order to support the response to the COVID-10 crisis where it is most needed, and to help prevent potential future crises and promote planetary health.

## Youth activities

In 2020, the Centre of Knowledge in the area of youth activities implemented as part of the activity of knowledge transfer tenth in a row Studies on Youth in three modules in the digital setting, focused on additionally empowering the participants in the area of youth and updating the activist engagement. The topics covered by the studies were related to workers’ rights, climate change, critical thinking, active citizenship, working with youth. Moreover, they learned about EU Youth Dialogue as a process and about youth participation.

The Centre of Knowledge conducted an analysis of the implementation of European Youth Goals in the Republic of Croatia in the period of 2018 – 2020. The authors went through a dozen institutions and analysed call priorities and strategic documents, and detected which Youth Goals were covered by those documents and calls. Some results of the analysis are surprising, such as for instance that the goal “Mental Health & Wellbeing” was not identified in any calls or documents, whereas others are to be expected for those who monitor youth policies in Croatia, namely that the most represented goals are “Inclusive Societies” and “Quality Learning”.

Of note is also the study carried out by the Centre of Knowledge on the perceptions of youth on open possibilities in the context of accession to the EU. The study encompassed questions from different areas, all related to how young people perceive changes in the seven years of Croatia’s EU membership, and whether in their opinion different areas have improved or worsened relative to 2013. The study has shown that young people believe it is easier to find a job today, that it is easier for people from rural areas to continue their education in bigger towns, or that the human rights of all citizens are better protected and respected. On the other hand, a considerable number of young people think it is much harder nowadays to obtain housing, that the state does not care sufficiently of the unemployed and those on social welfare, or that politicians and political parties listen to the voters less and comply with their will less than in 2013.

On the international level, the Centre of Knowledge participated in the development of the toolkit for working with youth titled “Youth work in/for the shrinking city” in cooperation with several national and international organisations, which was presented in December 2020 to the public at an online conference. The toolkit is considered to be the most important output of the international project dedicated to the challenge of working with the youth in shrinking cities.

Of note is also the study carried out by the Centre of Knowledge on the perceptions of youth on open possibilities in the context of accession to the EU. The study encompassed questions from different areas, all related to how young people perceive changes in the seven years of Croatia’s EU membership...

The 13th Clubture Forum was also organised as a gathering of independent culture organisations, in which representatives of a broader circle of organisations from the area of culture gained new insights into the implementation and possibilities of engaging in programmes organised by the Centre of Knowledge

Members of the Centre of Knowledge participated in various workshops, trainings, conferences, but also organised many themselves, thus, for instance, to clarify many questions and make the challenging 2020 easier for youth, in digital format they organised a series of forums on the youth's mental health – “And how are you doing?”, “New forms of support to youth mental health”, “Dating in the times of corona”. In the area of influencing public policies on the national and international level, it should be noted that members of the Centre of Knowledge actively participated in the National Task Force for the implementation of EU Youth Dialogue, task force for the development of criteria for the certificate “Youth-friendly city”, as well as in the Youth Council of the Croatian Government and the Council for Civil Society Development, and on the international level in the meetings of the European Steering Group, European Youth Forum, and different panels and expert forums.

### Independent culture

During 2020, the Centre of Knowledge for Social Development in the area of independent culture implemented the 20th continuous cycle of programme exchange and cooperation, with 31 participating organisations, organising 72 individual cultural and artistic events in 16 cities and locations in Croatia with participation of over 1300 citizens, most of which were youth, and with over 80% of all content taking place outside the capital.

The 13th Clubture Forum was also organised as a gathering of independent culture organisations, in which representatives of a broader circle of organisations from the area of culture gained new insights into the implementation and possibilities of engaging in programmes organised by the Centre of Knowledge. The Forum was focused on the current issues and challenges arising from the epidemiological situation, and finding possible solutions that were deliberated on through discussions and workshops.

They continued working on the visibility of the network and independent culture scene through the development of an interactive archival map of content implemented through the programme “Clubture-Hr: programme exchange and cooperation”, digitalisation of the organisational archives and public campaign for the upcoming 20th anniversary of the network, with the aim of promoting the values of networking and cooperation in the field of culture, highlighting the contribution of individual actors and stakeholders in independent culture, and re-evaluation of the activities of the independent culture scene within the field of culture.

The Centre of Knowledge is systematically involved in monitoring the development and implementation of public policies in the areas of its activities through direct advocacy and public consultations, but also through the work of the Council for Civil Society Development, as well as within numerous networks and platforms in Croatia. Furthermore, it actively participates in monitoring European cultural policies through participation in the regional organisation Kooperativa – Regional Platform for Culture, and through following the activities of the international network of organisations Culture Action Europe.

### Sustainable living and development of permaculture

During 2020, despite the COVID-19 pandemic, the Centre of Knowledge for Social Development in the area of sustainable living and development of permaculture organised several conferences, workshops and trainings on the subject of good economy, sustainable development and natural building with active participation in collaborative national and international networks. Of special note is the intensive development of the Community Seed Bank and continued management of the Cooperative for Good Economy as a solidary supply chain, as well as continuous promotion of and public advocacy for ecological models of food production. In that regard, the Centre of Knowledge carried out a major survey of the satisfaction and needs of beneficiaries and food producers in solidary supply chains in Croatia. This was

the first such survey on the national level, with the aim of developing recommendations for their improved work and development.

Environmentally minded developers and designers, researchers and practitioners, as well as other participants interested in green technologies, sustainable solutions and ecological innovations in architecture were gathered at the 4th Natural Building Convention. Due to epidemiological measures, the convention was organised in open air, in the forest by the Recycled Estate which was turned into a space for lectures, cinema screenings and discussions.

Due to the aggravation of the epidemiological situation in Croatia, ZMAG held the "Our Good Food" conference in extended edition with the agenda of several events under the title "Month of Our Good Food", which commenced with the international conference "Sustainable Food Systems Post-COVID-19", which was streamed live and could be followed on social networks. By participating in the conferences and seminars of other organisations, the Centre of Knowledge worked on knowledge transfer, as well as through the work of the free Citizens Counselling Centre.

In 2020, the Recycled Estate was completely renovated and entirely electrified, and the estate itself was suitable to hold various trainings and workshops in compliance with epidemiological measures.

In terms of publishing, the Centre of Knowledge issued a practical guide titled "Tools for the cooperation of schools and the local community in sustainable development", which covers the areas of cooperation, engagement, planning of the future, use of tools, strong and resilient local communities, learning from nature, and communication.

## Protection and promotion of human rights

In 2020, the Centre of Knowledge for Social Development in the area of the protection and promotion of human rights continued its participation and ongoing advocacy in the area of freedom of speech, suppression of hate speech, protection of whistleblowers, and promotion of human rights on the local level. As part of its continued activities, in the said period they also drafted, published and disseminated a report on the state of human rights in the Republic of Croatia for 2019, and continuously conducted surveys and monitored the state of human rights for 2020 for the purpose of preparing a new report. Moreover, in 2020 the Centre of Knowledge conducted and published an analysis of select judgments of the European Court of Human Rights from 2020 in cases against the Republic of Croatia.

In the said period, the Centre of Knowledge held the Annual Human Rights Conference. The first part of the conference, titled "Impact of the COVID-19 Epidemic on Human Rights in Croatia", featured discussions on the impact of the epidemic on the human rights of patients and access to healthcare, rights of persons with disabilities and elderly persons, rights of workers in the care sector, as well as the impact of the epidemic on the situation in education, potential solutions based on human rights and the protection of vulnerable social groups, while the second part of the conference titled "Access to Financing for Civil Society Organisations" featured presentations of the study findings on the experiences, issues and challenges in accessing funding for CSO activities, with an emphasis on financing from the state budget, EU programmes and European Structural and Investment Funds, the purpose of which was to identify the reasons for reduced access to funding.

The Centre of Knowledge regularly receives citizens' complaints on alleged violations of their fundamental human rights and queries on the possibilities of their protection. As the Centre of Knowledge is not an authorised provider of free legal aid, after receiving the query, citizens are referred to competent institutions and providers of free legal aid, which with their area of activity are best equipped to address the presented issues. In 2020, a total of 94 queries were received.

In the said period, the Centre of Knowledge held the Annual Human Rights Conference. The first part of the conference, titled "Impact of the COVID-19 Epidemic on Human Rights in Croatia", featured discussions on the impact of the epidemic on the human rights of patients and access to healthcare

Through its collaborative networks, the Centre of Knowledge participated in the most significant activities aimed at promoting the achieved standards of human rights, democracy, rule of law and social justice. The Centre of Knowledge actively participated in the work of the Council for Civil Society Development and the Ombudswoman Council, and implemented advocacy activities through organising and participating in round tables, conferences, media appearances, as well as activities within the GOOD Initiative and through the work of networks, INACH, Legal Expert Advisory Panel and Human Rights House Network. The said activities yielded results in terms of a systematic and constructive approach to and participation in public discussions on draft legislation and public policies, while advocacy for and promotion of human rights in the public and among all social groups represented a continuous task tackled by the Centre of Knowledge. Moreover, at the invitation of the European Commission, the Centre of Knowledge became the ambassador of the European Civil Initiative for Croatia.

### Improvement of the quality of life of persons with disabilities

The Centre of Knowledge for Social Development in the area of improvement of the quality of life of persons with disabilities (8th Centre of Knowledge), which gathers about 13 alliances of CSOs of persons with disabilities, in 2020 continued to work systematically on promoting the human rights of persons with disabilities. In that regard, the partner organisations of the 8th Centre of Knowledge jointly developed the Alternative Report on the Implementation of the Convention on the Rights of Persons with Disabilities (CRPD) and submitted it to the UN Committee on the Rights of Persons with Disabilities. The International Day of Persons with Disabilities, 3 December, this year was marked by the ceremonial Session of the Croatian Government Committee for Persons with Disabilities, within which the traditional meeting with the Croatian Prime Minister Andrej Plenković and the minister of labour, pension system and social policy Josip Aladrović was held, where the need was emphasised to include persons with disabilities in all aspects of the society through better understanding and mutual cooperation with a focus on the principles of communion, dialogue and partnership. Organisations of the 8th Centre of Knowledge for Social Development influenced social development and public policies in the area of improving the quality of life of persons with disabilities by organising and participating in trainings, forums, workshops and campaigns that they implemented throughout 2020, despite the challenges and circumstances brought about by the impact of the COVID-19 pandemic, which sometimes required a modification and organisation of activities in digital format.

In 2020, the 8th Centre of Knowledge held two digital thematic conferences. “Training of youth with disabilities in independent living” was held in cooperation with the European Disability Forum and was attended by over 60 persons who engaged in the discussion on independent living in the Republic of Croatia and on the service of personal assistance. The purpose of the other conference, “Financing of CSOs, inclusive allowance and services of helpers – where are we and what can we expect?” was to define the key steps in order to obtain quality systematic, legislative solutions that will improve the quality of life of persons with disabilities in the Republic of Croatia.

In addition, in June 2020 a joint coordination meeting was held organised by the National Foundation, with the representatives of partner organisations involved in all 9 Centres of knowledge, where the representatives of the involved CSOs presented their positions on the challenges in their work encountered in connection with the consequences of the COVID-19 pandemic, and in accordance with the new circumstances they also presented their activities until the end of 2020.

The partner organisations of the 8th Centre of Knowledge continued to feed the Knowledge Bases established on their websites with documentation relevant to the transfer of knowledge in the area of activities of the Centre of Knowledge including publications, training materials, and video and audio documentation.

The International Day of Persons with Disabilities, 3 December, this year was marked by the ceremonial Session of the Croatian Government Committee for Persons with Disabilities ... where the need was emphasised to include persons with disabilities in all aspects of the society through better understanding and mutual cooperation with a focus on the principles of communion, dialogue and partnership

In 2020, a total of 201 employees actively participated and thus gave their contribution to the numerous activities carried out within the Centre of Knowledge in the area of improvement of the quality of life of persons with disabilities. There were 180 volunteers participating in the programmes, with a total of 7,354 volunteering hours. The implementation of numerous activities included 25,435 direct beneficiaries, and in the previous period the alliances had 561 media releases.

### Improvement of the quality of life of Croatian veterans and civil victims of the Homeland War

Pursuant to the Agreement on Development Cooperation, fifteen partner organisations from the Homeland War involved in the Centre of Knowledge for Social Development in the area of improvement of the quality of life of Croatian Veterans and civil victims of the Homeland War (9th Centre of Knowledge) continued their activities throughout 2020. CSOs of veterans of the Homeland War organised a joint conference titled “Strong in Communion”, focused on the positive impact of veterans and civil victims’ associations on the community through different forms of humanitarian work and volunteering. The conference also featured psychiatry and psychology experts who delivered presentations on stress and PTSD in the times of the new normal, as well as on facts on the coronavirus. The conference highlighted the need to act on changing the public perception of war veterans and CSOs from the Homeland War.

From 15 to 17 June 2020, a joint coordination meeting was held organised by the National Foundation, with the representatives of partner organisations involved in all 9 Centres of Knowledge. At the meeting, representatives of the involved CSOs reflected on the challenges in their work encountered in connection with the consequences of the COVID-19 pandemic, and also presented their activities until the end of 2020.

The partner organisations of the 9th Centre of Knowledge continued to feed the Knowledge Bases established on their websites with documentation relevant to the transfer of knowledge in the area of activities of the Centre of Knowledge. In 2020, despite the circumstances brought about by the COVID-19 pandemic, the organisations of the 9th Centre of Knowledge managed to organise, implement and participate, live or virtually, in various trainings, workshops, forums, as well as to influence social development in their area of activity and the public policies in the area of the veteran population and their families.

CSOs of veterans of the Homeland War organised a joint conference titled “Strong in Communion”, focused on the positive impact of veterans and civil victims’ associations on the community through different forms of humanitarian work and volunteering.

### Overview - Centres of Knowledge for Social Development (statistical data for all 9 Centres of Knowledge)

	Total
Number of co-financed salaries	98
Number of volunteers involved	1.267
Number of direct beneficiaries	198.784
Number of website posts	7.487
Number of media releases	4.669
Number of website visits	2.534.548
Number of implemented activities	210
Number of involved citizens	56.948

Innovative support programmes

---

It's important to have:  
support!

## Initial programme cooperation

In 2020 the said associations jointly launched the website [www.popularizacija-znanosti.hr](http://www.popularizacija-znanosti.hr) with the aim of addressing science popularisers with various information, news and activities in the area of science popularisation

In the area of initial programme cooperation, in 2020 the National Foundation invested via grants into innovative areas of civil society development. The Croatian Interdisciplinary Society, Association Professor Balthazar and Association of Public Health Andrija Štampar are organisations that in 2018 received grants after applying to the call for the expression of interest in the area of initial programme cooperation. The implementation commenced by signing an Agreement for the period from 1 September 2018 to 31 August 2019, after which by the decision of the National Foundation's Management Board an additional implementation period ensued for initial programme cooperation, until 31 December 2019, in order to gain time to evaluate the capacity of the associations to enter into three-year programme cooperation with the National Foundation. After the additional implementation period, the National Foundation's Management Board approved the continuation of financing in 2020 by connecting the two associations active in the STEM area (Croatian Interdisciplinary Society and Association Professor Balthazar). In that regard, in 2020 the said associations jointly launched the website [www.popularizacija-znanosti.hr](http://www.popularizacija-znanosti.hr) with the aim of addressing science popularisers with various information, news and activities in the area of science popularisation, while in the area of health one association (Association of Public Health Andrija Štampar) continued its activities. However, on 14 September 2020, the Management Board decided to discontinue further implementation of initial programme cooperation due to a partial absence of expected level of organisational development for the associations involved. In order to continue providing support, it was made possible for the associations involved in the initial programme cooperation to redirect into a transitional period of organisational development through institutional grants in the duration of 3 years, starting from 1 January 2021, with direct award of the equivalent amount of approved grant through previous initial programme cooperation.

## Implementation

### STEM and civil society organisations - Croatian Interdisciplinary Society

Activities in this area in 2020 continued to be focused on the networking of organisations in Croatia active in the STEM area (science, technology, engineering & mathematics) for the purpose of joint activities aimed at increasing the visibility and importance of the STEM area and the possibilities of its impact on the development of the Republic of Croatia. Hence, in October the 3rd Annual Meeting of Science Popularisers was held, with the participation of about 30 individuals, members of CSOs and institutions active in science popularisation in Croatia. The aim of these annual meetings is to discuss the state of affairs in Croatia and the possibilities for improvements in science popularisation, and to jointly initiate, apply with and implement project activities and events in science popularisation intended for all age groups. In 2020, several humorous and educational videos were made, titled "Think before you speak", to help young people develop their own presentation skills. The magazine *Sustavi* (Systems), a popular science magazine published since 2007, obtained its website in 2020 for easier communication of authors of the articles published in the magazine.

### STEM and local community development - Association Professor Balthazar

The owner of activities in this area lays emphasis on networking and cooperation strengthening with numerous scientific and technological institutions, association and citizens and the business sector, in order to develop and promote the STEM area. The 9th Science Picnic was held in September 2020, this year in digital format with the live opening of the event on 25 September in the gardens of the Stubički Golubovec castle, with the aim of popularising science for the broadest audience. Given the circumstances and conditions caused by the COVID-19 pandemic, those who wanted to attend the picnic also had to prepare a video of activities that they would have shown live had it been possible. It was a challenge and a new way of expression and

participation for all schools, teachers, students, associations, high school and higher education institutions. The said videos, as well as the videos of presenters from Croatia and other countries, found their place in the virtual Science Picnic, i.e. on its YouTube channel, thus becoming permanently available.

## Prevention and protection of health - Association of Public Health Andrija Štampar

The aim of this area is to promote health and healthy lifestyles by implementing activities designed based on the principles of Dr. Andrija Štampar, who advocated for physicians being active among the population, and not just in healthcare institutions. This very aim underlies the activities of the counselling centre with the purpose of informing, educating and counselling in order to promote, develop and improve the health of individuals and quality of life of the community, strengthen connections and cooperation in the activities of all health protection stakeholders, as well as to raise awareness of the physical, emotional, mental and social aspects of health. During the height of the COVID-19 pandemic, a Facebook campaign was launched in the form of short videos with the purpose of spreading scientifically verified facts on COVID-19 and educating the general population on the measures to protect themselves and those around them from a possible infection. It should be noted that in December, albeit in digital form, the international symposium 12th Štampar Days was held, which serves to foster networking and strengthening of organisations' capacities in order to influence positive social change in the area of prevention and education of the broader public on the need to preserve health and protect oneself from illness. This year the main topic of the Štampar Days was the COVID-19 pandemic, and in addition to the educational component, the Štampar Days also had a public health component in the form of blood pressure measuring.

... the international symposium 12th Štampar Days was held, which serves to foster networking and strengthening of organisations' capacities in order to influence positive social change in the area of prevention and education of the broader public on the need to preserve health and protect oneself from illness

### Implementation of initial programme cooperation in 2020

	Total
number of employees in 3 partner organisations	7
number of persons whose salary was financed from the National Foundation's gran	7
number of direct beneficiaries	1.246
number of involved volunteer	29
number of media releases	25
number of posts on the CSOs' websites/social networks	282
number of visits to the CSOs' websites	27.528

### Call for expression of interest in initial cooperation in the area of cooperation in exchange of knowledge and experience (KEEP)

In 2020 as well, the National Foundation for Civil Society Development launched a call for expression of interest in initial cooperation in the area of cooperation in exchange of knowledge and experience titled KEEP (Knowledge and Experience Exchange Program). However, this time the said call was focused exclusively on establishing cooperation in the Euro-Mediterranean within joint programmes with the national networks of civil society organisations in 42 countries involved in the Anna Lindh Foundation (ALF). After the call was published on the National Foundation's website on 11 November, and was open until the end of the year, the necessary information was sent by email to all coordinating organisations of the national ALF networks by the National Foundation, in cooperation with the ALF Secretariat.

The call covers cooperation in the training programme to be organised at IMPACT: Euro-Mediterranean Academy for Philanthropy and Social Development in Zadar, and is focused on representatives of organisations that are members of the national ALF networks, as the final beneficiaries.

The main objective of this call is to provide an opportunity to individuals who are (potential or existing) change-makers in their local communities to attend training at the IMPACT Academy in order to improve their knowledge and skills in the field of self-sustainability and quality of life. However, the selection procedure starts with a questionnaire (in English or French) which is prepared so as to provide the applicants with an opportunity to share their opinions/experience in the relevant areas. Then the best candidates are selected, in cooperation with the coordinating organisation of the national ALF network and the National Foundation, and the training programme is initiated, either online or physically, depending on the situation with the epidemiological measures in force at the time.

The first step in achieving cooperation through this call is receiving the completed form of expression of interest in cooperation from the interested coordinating organisation of the relevant national ALF network, after which the second step involves sending of the necessary information (links to online questionnaire) to all members of the said national network. The final step and the result of the selection procedure, which will ensue after completing the above questionnaire, is the acceptance of one application from each ALF national network – maximum 41 in total. In case several quality applications are received from one national network, provided there are no applications from some other, it is possible to approve cooperation in the training programme for more participants from one national network (with the exception of the Republic of Croatia, where the procedure has already been conducted). The deadline for applying to this call is 15 February 2021.

### “Heart Print” award

Volunteering is one of the fundamental values of the civil society, and the engagement of children and youth in volunteering initiatives and activities is a precondition for the development of civic activism and civic education of children and youth.

In 2020, the National Foundation completed the successful implementation of awarded volunteering initiatives and innovative models of volunteering which in 2019 received the “Heart Print” award (primary schools) and “Kindness Binds and Unites Us” (secondary schools) under the motto

“You don't have to walk on water.  
You don't need to be better than others.  
You have nothing more than anyone else does,  
but what makes a difference, are acts which leave in others  
your mark... a heart print...”

With this award, the National Foundation strives to encourage and award primary and secondary school students, their volunteering initiatives and engagements testifying to their selfless desire to contribute to their local community through their activities, in order to make their own life and the lives of others in it more pleasant and fulfilled. The annual “Heart Print” awards following the above call were given to 9 volunteering initiatives of primary schools, while the “Kindness Binds and Unites Us” award was given to 6 innovative models of volunteering development for secondary schools, the implementation of which should be completed by 1 May 2020, but certain activities were implemented even after this deadline due to the challenges caused by the new epidemiological situation.

In 2020, the National Foundation joined the UN initiative “Sustainable Development Solutions Network” and in cooperation with international partners from Sienna and Bolzano launched the development of educational models for primary and secondary schools in line with the 17 sustainable development goals that provide a critical framework for recovery from COVID-19.

## Cross-sector and international cooperation

Since 2009, the National Foundation has been implementing cross-sector cooperation programmes in the facilities of former military barracks in Zadar, which were renovated into IMPACT – European Centre for Cross-Sector Partnerships. The Centre carries out its activities with the support of a wide network of partner organisations, trainers, mentors and experts from Croatia, southeast Europe and other countries.

In 2020, IMPACT – European Centre for Cross-Sector Partnerships did not organise seminars, workshops, conferences, round tables, summer schools, public forums or annual assemblies as in the previous years due to the decision of the Civil Protection Headquarters on mobilisation, based on which the accommodation capacities were used for the purposes of self-isolation and quarantine for persons referred to the premises of IMPACT centre.

## Cooperation in the Euro-Mediterranean

Guided by the general objective defined through empowering Croatian civil society organisations and focusing on the exchange and intercultural dialogue in the Euro-Mediterranean by strengthening and fostering coordination, mobilisation and development, as well as by providing support in the promotion of ALF programmes and activities, the Croatian ALF national network, coordinated by the National Foundation for Civil Society Development, is facing new challenges as one of the components of the Anna Lindh Euro-Mediterranean Foundation for the Dialogue Between Cultures (ALF). In early 2020, at the moment when the membership of the Croatian network was sent a detailed questionnaire on re-confirmation of membership to the addresses of all 156 (at the time) members of the Croatian network, the world was forced to face an unprecedented risk that no one could have foreseen – the COVID-19 pandemic, which brought about numerous and very dramatic changes into all spheres of the society. The Croatian network currently has 85 members and falls under medium-sized national networks, managing to retain a large number of members despite the new circumstances. In addition, immediately after the pandemic outbreak, the territory of Zagreb and towards the end of the year of Petrinja were struck by earthquakes that also largely impacted the everyday functioning of social life and infrastructure. All these factors contributed to the fact that during 2020, the planned objectives in all areas of activities were not achieved, or were achieved in considerably modified forms and new outcomes.

In the context of the Croatian Network's activities, this primarily pertains to the organisation of the planned MedForum 2020, for which already in late 2019 the preparations were almost done, including the paid plane tickets for the presenters and some other participants. In addition, an extensive list of 441 participants from Croatian CSOs (partly also members of the Croatian Network) was prepared for participation in the Forum, following very successful thematic meetings which took place during 2019 in Primošten (with participants from 17 ALF national networks) and Zadar (with 21 participants from 19 ALF national networks). However, instead of the Croatian Network hosting this great event, the described developments led to a postponement, and subsequently cancellation of any possibility of holding this forum in 2020.

The regular annual meeting of national ALF coordinators was held online from 30 November to 3 December 2020, organised by the German National Network, with the presence of national ALF coordinators from 30 countries, as well as the ALF Secretariat, and representatives of various programmes and projects launched by ALF. The focus of the meeting were deliberations on the preparations for the next period of activities of the Anna Lindh Foundation as a network of all networks for dialogue between the cultures in the Euro-Mediterranean, in which the Croatian Network for Cooperation in the Euro-Mediterranean also took active part. At the meeting, executive director, Dr. Nabil Al Sharif, announced and clarified the launch and implementation of

The Croatian network currently has 85 members and falls under medium-sized national networks, managing to retain a large number of members despite the new circumstances.

new calls and similar forms of financial grants to organisations-members of the national ALF networks, which are now carried out in the new circumstances of the COVID-19 pandemic.

During 2020, the National Foundation as the coordinator of the Croatian Network sent an application to a call for short-term projects, launched by ALF, together with 4 partner organisations – members of the national networks of Greece, Turkey and Spain, in line with the conditions of the call. In late 2020, the ALF Secretariat sent a notification on approval of the project titled **QUO VADIS EURO-MED CIVIL SOCIETY?**, which signified the initiation of its implementation that is to last until August 2021. The aim of the project is to analyse the situation in the Euro-Mediterranean, where the civil society has a potential and/or existing practice of operating on the national, regional and international level, thereby also positively and creatively contributing to cross-border cultural relations, with an emphasis on the establishment of the leading role of youth as leaders and change-makers. The expected project outputs include assessment of the current state of affairs of the civil society in the Euro-Mediterranean, recognition and improvement of dialogue and cooperation between various civil society stakeholders in the area, influencing public policies by developing recommendations focused on further development of the civil society, as well as the establishment of a resource base that would include methods, capacity building projects, publications, links to relevant websites etc. The implementation will feature several webinars and similar events, including an online survey, of which more information will be sent to all who are interested.

The first online meeting of representatives of the Croatian Network was held on 17 December 2020. This meeting was not carried out in physical form due to the protection measures against the spread of COVID-19, but rather virtually using the GoToMeeting platform. The meeting agenda included an overview of the Croatian Network's activities in the previous period and conditions of the pandemic, report from the annual meeting of national ALF network coordinating organisations, and the attending 25 members of the Croatian Network presented their activities in the previous periods, as well as their plans for the following period. This form of communication and exchange, given the situation with the pandemic, will also continue in the ensuing months, hence the first meeting of this kind also served to test the possibilities offered by the online platform and demonstrated that Croatian Network members accepted activities in altered circumstances, with continuous interest and motivation for participating in the Network's activities, which certainly gives hope and gives rise to optimism for cooperation in the future period.

The aim of the project is to analyse the situation in the Euro-Mediterranean, where the civil society has a potential and/or existing practice of operating on the national, regional and international level, thereby also positively and creatively contributing to cross-border cultural relations...

## Philanthropy and foundations

The aim of this initiative was to highlight the importance of empathy and familiarise the broader public with the activities of foundations in the difficult situation caused by the coronavirus and the earthquake...

In 2020, the National Foundation continued to support the development of philanthropy and foundations through the work of the Croatian Foundations Forum ZaDobroBIT!, and additionally through the establishment of development cooperation with the European Foundation for Philanthropy and Social Development, given that the development of foundations in the Republic of Croatia is not yet at the level of other EU Member States. The said cooperation encourages further development of philanthropy and foundations, increases recognisability of foundations in the Republic of Croatia, raises the quality of their activities and the culture of giving for public benefit, and promotes social innovations in local communities. The Croatian Foundations Forum ZaDobro.BIT! gathers 38 foundations registered in various areas of activity.

In cooperation with the European Foundation for Philanthropy and Social Development, in response to the COVID-19 pandemic the National Foundation for Civil Society Development invited all foundations, members of the Forum ZaDobroBIT!, to join the initiative "Our Stories for Wellbeing!".

The aim of this initiative was to highlight the importance of empathy and familiarise the broader public with the activities of foundations in the difficult situation caused by the coronavirus and the earthquake, and to use bright examples to encourage other citizens to community service as well. The stories received on the work of foundations in the times of a pandemic and their response to the new situation were published on the ZaDobroBIT.hr portal and on the official Facebook page of the ZaDobroBIT! platform.

## Philanthropy Week 2020

This year, for the fifth time the Republic of Croatia joined in the celebration of the European Day of Philanthropy and Foundations, celebrated across Europe on 1 October. The celebration was part of the Philanthropy Week from 23 September to 1 October 2020. Due to the epidemiological measures to prevent the spread of COVID-19, the focus was on the virtual format of implementation of activities which were supported in all major Croatian cities. The main objective of celebrating the European Day of Philanthropy and Foundations was to motivate as many citizens as possible to contribute with their own engagement to further development of philanthropy in Croatia.

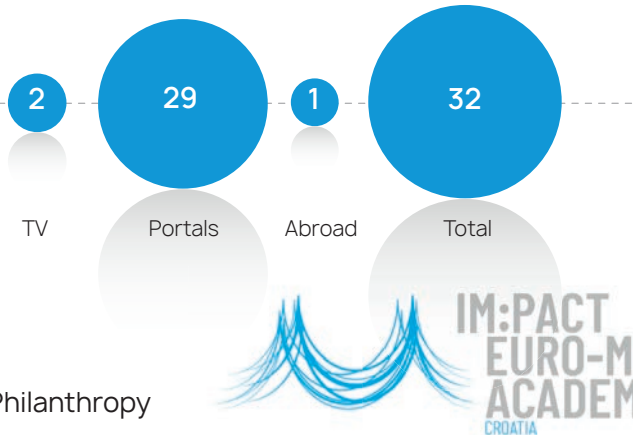

**TJEDAN  
FILANTROPIJE**  
2020.

The National Foundation for Civil Society Development, in cooperation with the European Foundation for Philanthropy and Social Development as the coordinator of the Croatian Foundations Forum ZaDobro.BIT!, prepared a virtual exhibition on the history of philanthropy in Croatia, as well as audio-visual material (short film on philanthropy in Croatia) to promote the observance of the Philanthropy Week 2020.

Analysis – Philanthropy Week 2020 – Media releases

### Academy for Philanthropy

In cooperation and with the financial support of the US Embassy in the Republic of Croatia, in 2019/2020 the National Foundation for Civil Society Development contracted 5 training modules as part of the Academy for Philanthropy for the representatives of foundations involved in the Croatian Foundations Forum “ZaDobro. BIT!”, of which the last training module was held in 2020 in digital format.

**Module 1** Sustainable development network and umbrella funds

**Module 2** Building and running an effective organisation and utilising all community resources to increase the effectiveness of the organisation

**Module 3** Organisational development leadership and management, change management, fundraising methods and action and crisis planning

**Module 4** Creating digital innovation campaigns

**Module 5** Digital civil society and democracy

The training was provided by experts from the fields of foundations and philanthropy, presenters from the US with significant international experience. The first four modules were held live, while the last module, due to the COVID-19 pandemic, was held in digital format from 13 to 19 November 2020.

The topic of the last module, “Digital civil society and democracy”, was adapted to the new situation and was more than topical in the current period of crisis. The last cycle was held using a combination interactive method with digital tools in order to meet all the efficiency requirements for the training. The training was facilitated by professor Lucy Bernholz from the University of Stanford, who in cooperation with the programme coordinators prepared an audio-visual presentation on the subject of digitalisation challenges for philanthropy in a democratic society for the needs of the first training module, while the second part featured a presentation and discussion with all participants, representatives of the foundations forum ZaDobroBIT!.

There was a total of 94 representatives of foundations from the Croatian Foundations Forum ZaDobroBIT! participating in the training programme within the Academy for Philanthropy, which has provided a solid foundation for further development and future activities of foundations in the Republic of Croatia.

## Youth: The Strength of Community

In addition to the above, in 2020 the National Foundation for Civil Society Development was also involved in the final activities of the implementation of the project titled “Youth: The Strength of Community”, implemented by the European Foundation for Philanthropy and Social Development (also supported by the US Embassy), within which a call was published for innovative initiatives launched and managed by informal youth groups, with the aim of increasing youth participation in the local development processes in local communities (Zadar, Rijeka, Jastrebarsko, Split, Đakovo and Postira). In the second part of the project implementation, the planned public presentation of initiatives was postponed due to epidemiological measures taken because of COVID-19, so audio-visual material was prepared, with the participation of all rewarded young people, who thus presented the results of their initiatives. The audio-visual material is available in the official channels of the European and National Foundation, and has also been translated into English.

## Community Potentials

The first step was to establish all the existing and possible potentials of the local communities that could be an impetus for change and development in those local communities hence an analysis was conducted of the existing and possible potentials of local self-government units...

In the new, extraordinary circumstances caused by the COVID-19 pandemic and the strong earthquake that had struck the city of Zagreb, the National Foundation for Civil Society Development together with partner civil society organisations and other stakeholders launched the initiative ‘Community Potentials’. The aim of the initiative was to take steps towards mitigating the consequences that can be expected in terms of socio-economic changes that will ensue after the pandemic outbreak. The first step was to establish all the existing and possible potentials of the local communities that could be an impetus for change and development in those local communities, hence an analysis was conducted of the existing and possible potentials of local self-government units: from the development level of social capital, solidarity to the strength of small enterprises, social entrepreneurship and cooperatives in order to obtain information needed to plan and implement the pilot programme Community Potentials. In May 2020, the National Foundation surveyed the key stakeholders making positive changes in the local communities in Croatia, to better understand their views and readiness to join in the new models of sustainability and resilience of local communities, and to join the training programmes at **IMPACT: Euro-Mediterranean institution for education in philanthropy and social development**. A total of 364 completed the online survey in the period from 18 May to 29 June. The respondents come from **88 local self-government units from all of Croatia**, and represent 20 different types of organisations in which they operate, although in most cases in some of the legal forms of civil society organisations.

Based on this positive feedback, the National Foundation will organise the first part of the pilot programme **Community Potentials** by inviting all suggested local self-government units (municipalities and cities) to join in and with the virtual pilot training programme of the IMPACT institution for selected change-makers in 2021.

## “Good Cities” pilot programme

The year 2020 saw continued cooperation and joint elaboration of new operational models with the cities of Zadar, Jastrebarsko, Đakovo and Rijeka through the ‘Good Cities’ pilot programme implemented by the National Foundation for Civil Society Development in cooperation with the European Foundation for Philanthropy and Social Development and international partner organisations. The preparatory procedure was also initiated with regard to a joint call for the financing of services/production/activities of stakeholders in the community who contribute to socio-economic development, sustainability, recovery and resilience of each involved local community.

The National Foundation's official website (<http://zaklada.civilnodrustvo.hr>) is a means of informing the general and interested public on the work of the National Foundation, calls for proposals and for expression of interest, results of calls, announcements of seminars and training programmes of partner organisations, consultations, information on the decisions of the Management Board, reports from conferences and multi-media features, and direct online broadcasts of consultations and meetings organised for the needs of the interested public.

...informing on the work of the National Foundation, calls for proposals and for expression of interest, results of calls, announcements of seminars and training programmes of partner organisations, consultations...

During 2020, the website had a further increase in the number of visits in comparison with the previous year, reaching a monthly average of 58,852 visitors.

Furthermore, in 2020 the National Foundation proceeded with its multi-annual continuity of providing information on the activities of CSOs in the European Union, and on the announcements of calls from the European Social Fund.

In addition to providing information on its website, the National Foundation also informs the interested public through e-mailing lists, and by providing professional and technical support to the [civilnodrustvo.hr](http://civilnodrustvo.hr) portal.

Information on the work of the National Foundation was shared by various media in 1004 releases, while an analysis of online and printed media announcements, TV and radio features, showed that 34% of releases were in the printed media, 65% in online media, and 1% in TV and radio features.

In an effort to further increase the number of page views and access more easily the desired information on the website, the redesign of the website provided for customised graphical display on various electronic devices used for communication and Internet access, and in line with the Act of Accessibility a procedure was initiated to adapt all digital tools of the National Foundation.

Total number of unique visitors in 2020: **712.070**

Total number of page views in 2020: **6.124.901**

## Portal civilnodrustvo.hr

In 2020, the National Foundation continued working on the “Civil Society” portal – an information platform on the activities of CSOs in Croatia. The portal aims to present the numerousness and diversity of projects and initiatives of CSOs financed from the public sources, and in particular of projects co-financed by the European Union from the European Social Fund, in order to demonstrate the benefit provided by the implementation of projects to civil society development and the society at large. In 2020, the portal published 1300 different journalistic forms and shared them on social networks.

# Digitalisation of approvals and grant monitoring

## Financijske podrške.hr

The website [www.financijskepodrske.hr](http://www.financijskepodrske.hr) was developed by the National Foundation as a platform which enables CSOs to send e-applications to published calls.

In 2020, successful co-implementation of e-applications for calls launched by state administration bodies was continued.

Financijskepodrske.hr is a platform launched in order to connect in one place the grant givers and grant receivers at all stages of grant giving and the implementation of approved grants. This way all information related to the publication of calls, applications, results of the calls, and grant implementation is integrated.

As a platform, financijskepodrske.hr not only offers administrative simplifications, but has also reduced large amounts of paper which were used in previous regular applications for the calls. This is an advantage both for the applicants and for the beneficiaries of Potpore\_Plus, another online service of the National Foundation, used by those giving grants to CSOs, which is directly connected with the use of the application system Financijskepodrske.hr.

In 2020 number of e-applications = **1.338**

## Institutions using Potpore\_Plus and financijskepodrske.hr

- Ministry of Croatian Veterans
- Ministry of Regional Development and EU Funds
- Ministarstvo turizma
- Ministry for Demography, Family, Youth and Social Policy
- Ministry of Health
- Ministry of Economy, Entrepreneurship and Crafts
- National Foundation for Civil Society Development
- City of Zadar

## Potpora\_Plus, eReportingCSO module

The National Foundation also achieves efficiency in its activities by continuous investments into computer systems, support and training, both of target programme users and of its own employees.

The National Foundation continued to upgrade Potpora\_plus as a unique information system for monitoring financial grants, which was in 2020 used by 8 public administration bodies and/or local and regional self-government units which have established some kind of grant giving for CSO projects and programmes. In 2020 in this way a total of 1339 applications were received to various calls for which funding was secured from public sources.

In cooperation with and for the purposes of the Croatian Government's Office for Cooperation with NGOs, in 2020 the National Foundation continued to develop the eReportingCSO (elzvještavanjeOCD) module as a website which serves as a single point for the publication of annual reports by levels for all institutions/public administration bodies/local and regional self-government units/companies in full or majority ownership by the Republic of Croatia, which finance CSOs from public sources, and serves to the Office for Cooperation with NGOs as an efficient data retrieval service, and for reporting on the financing of CSOs in the Republic of Croatia by the year of financing. During 2020, certain upgrades were made to the system based on the request by the Office for Cooperation with NGOs.

The year 2020 saw the beginning of the use of the interactive reporting module, which received a total of 765 reports in digital format.

In 2020 the National Foundation continued to develop the eReportingCSO module as a website which serves as a single point for the publication of annual reports by levels for all institutions/public administration bodies/local and regional self-government units/companies in full or majority ownership by the Republic of Croatia...

# European Social Fund and activities of the National Foundation as IB-2

# 95

It's important to have:  
support!

National Foundation for Civil Society Development is  
Intermediate Body Level 2 (IB2)

# European Social Fund

## Activities of the National Foundation as Intermediate Body Level 2 (IB-2)

On 16 August 2012, the National Foundation for Civil Society Development received the Decision on Accreditation as Intermediate Body Level 2 by the European Commission, for Measure 2 of Priority 5 – Strengthening of the Role of Civil Society Organisations for Socio-Economic Growth and Democratic Development. From accreditation within the IPA IV component to date, the National Foundation has participated in the same capacity in the implementation of the Operational Programme Human Resources Development 2007-2013 for the Priority Axis 5 – Interventions in the field of civil society and in the Management and Control System for the implementation of the Operational Programme Efficient Human Resources 2014-2020 within the Priority Axis 2 - Social Inclusion, and 4 - Good Governance.

As Intermediate Body Level 2, the National Foundation fulfils all the tasks from within its purview in the preparation of the calls for the submission of project proposals, administrative review of received applications to the calls, review of cost eligibility, in cooperation with Intermediate Bodies Level 1 in the selection of projects, conclusion of grant agreements, and following the contracting, monitoring of project implementation and progress, on-the-spot checks, and checks of the use of visibility elements in all activities of the projects co-financed from the European Social Fund (ESF). In order to help all interested applicants obtain systematic support in the calls that will be launched within the framework of the European Social Fund (ESF), the National Foundation continues to develop and enhance the Department for Support and Monitoring of EU Programmes which, since November 2019, has been operating as the Department for Support and Information on EU Programmes.

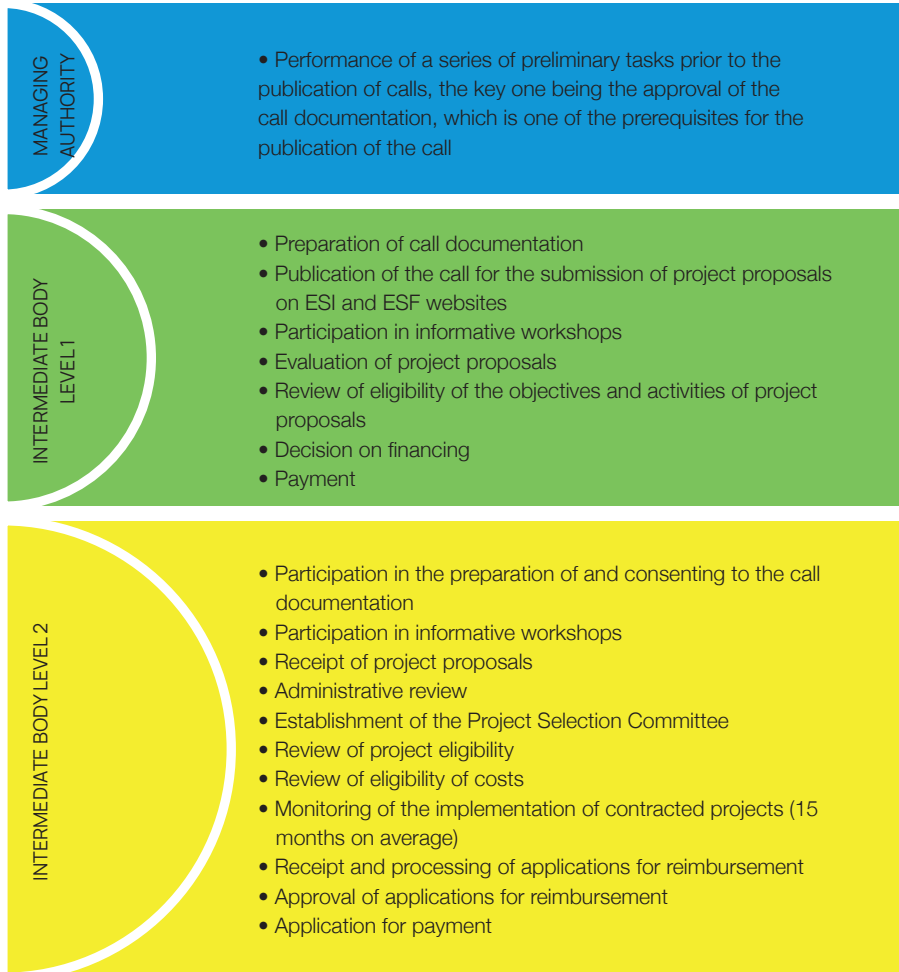

The year 2020 was marked by two major crises, first of all the COVID-19 pandemic caused by the new Corona virus, which changed the global outlook and habits of the society, forcing it to limit human contacts and introduce epidemiological precautionary and preventive measures into all pores of the society, both the professional and personal environment of the majority of the global population. The National Foundation, as an active factor in social development and an institution that supports civil society development and securing of a financial foundation for its sustainability and acting for public benefit, unfortunately was not immune to direct adverse effects of the pandemic, and practically in no time adapted to the new working conditions, as usually designing new methods and tools for successful operations and efficient implementation of all measures and tasks from within its purview.

The second major crisis was the devastating earthquake that struck Zagreb in March 2020. The earthquake also had far-reaching consequences on the mental health of the population, as well as on the possibility of functioning for the entire system related to Zagreb and the surrounding areas. A large part of the downtown was damaged in the earthquake, and many lost the roof over their head. A similar thing happened to many of the ESF grant beneficiaries, and all of this, in combination with the pandemic, additionally made operations more difficult. A tragic sequel to the earthquake in Zagreb was another, even more devastating earthquake that struck parts of the Sisak-Moslavina, Zagreb and Karlovac Counties in late 2020, and which made functioning for the beneficiaries and the population at large nearly impossible at the level that was possible before the natural disaster.

This part of the annual report to a certain extent contains references to the above events, given that they directly and greatly influenced all of the processes that the National Foundation as an authority in the system implements.

## Grant award procedure

## Support and information

Support programmes in 2020 encompassed a total of 2476 persons through 112 different activities. Despite the epidemiological situation and the earthquakes, the number of participants in support activities in the National Foundation had never been higher.

Partner organisations' workshops on topics related to the work of CSOs

Support programme	Number of activities	Total participants
Individual meetings	27	49
Support workshops	20	484
Implementation workshops	13	436
Regional partner organisations workshops	52	1507
<b>TOTAL</b>	<b>112</b>	<b>2476</b>

As part of the Support and EU programmes implementation programme and in cooperation with regional partner organisations, in 2019 the National Foundation for Civil Society Development continued to organise workshops intended for CSOs and other potential applicants to calls for grant awards from the European Social Fund, which have no or very little experience in the area of project cycle management, assessment of needs in the local community, assurance of quality project implementation, volunteer management and other relevant topics. The objective

of these workshops is to acquaint the attendants with the basic terminology related to the topics useful when designing project proposals, with particular emphasis on the possibility of applying to calls for grant awards from the European Social Fund. One-day and two-day workshops were held from January to December 2020 in four Croatian regions:

- Northern and northwestern Croatia - Zagreb, Čakovec, Bjelovar: Centre for Civil Initiatives; Autonomous Centre - ACT
- Eastern Croatia - Osijek: DKOLEKTIV
- Southwestern Croatia - Rijeka: SMART
- Southern Croatia - Split: "MI" Association

No.	City	Number of workshops	Number of participants
1.	Zagreb	10	277
2.	Čakovec	12	326
3.	Osijek	10	196
4.	Rijeka	10	439
5.	Split	10	269
<b>TOTAL</b>		<b>52</b>	<b>1507</b>

In 2020, as part of the regional development programme, 54 workshops were held with a total of 1507 participants. Due to the COVID-19 pandemic and earthquake in Zagreb, the National Foundation and partner organisations were forced to switch to remote mode using various programmes, which proved to be successful and in the period of isolation and restricted movement, increased the number of interested workshop participants.

In 2020,  
54 workshops were held with 1507 participants.

### Guidelines for beneficiaries - implementation workshops

As part of its role of Intermediate Body Level 2, the National Foundation implements "Guidelines for beneficiaries", i.e. an implementation workshop for the beneficiaries of grants from the European Social Fund (ESF).

The aim of the implementation workshop is to provide all grant beneficiaries with the National Foundation's direct support in the implementation of approved projects, and answer all their questions regarding project implementation and drafting of mandatory documents and reports.

In 2020, the National Foundation held 13 implementation workshops for a total of 436 participants. Although because of the pandemic most of the workshops were held remotely in digital format, some of them were also held live with the beneficiaries. Even though the year 2020 served as a year of learning and adapting to new methods and technologies of remote work, the experience so far nevertheless shows that direct contact and discussion with the beneficiaries yielded the best effect. The number of implemented workshops is higher than the number of contracted calls because due to epidemiological measures it was necessary to reduce the number of participants per workshop and secure physical distance.

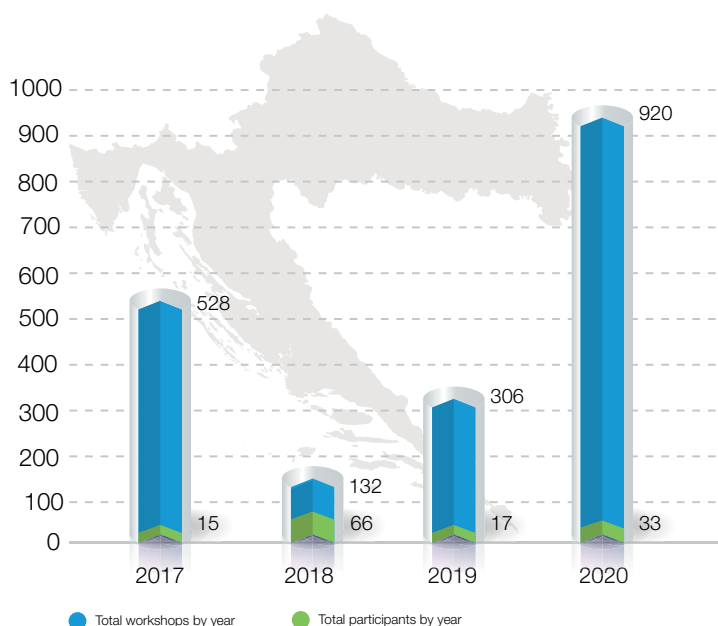

In 2020, there were 13 implementation workshops for  
436 participants.

## Beneficiary support workshops

A special step forward in the work of the National Foundation as IB2 are the beneficiary support workshops organised by the National Foundation as an additional tool to support the beneficiaries of ESF grants in the implementation of contracted projects. In terms of content, the support workshop extends and deepens the information and topics of implementation workshops, provides more comprehensive information, an approach adapted to the beneficiary profile and an interactive and participatory type of learning and informing. Namely, in the support workshop each element of the implementation, from the contractual obligations, through financial reporting, reporting on the indicators and measurable outcomes or procurement issues all the way to the most common mistakes and the final application for reimbursement, is analysed and presented to the beneficiaries with a chance to practice and check their knowledge before they set out to generate reports.

In 2020, the National Foundation organised 20 support workshops for 484 participants. The workshops were divided into more groups with fewer participants due to the pandemic and epidemiological measures.

In 2020,  
there were 20 support workshops with 484 participants.

## Individual meetings and beneficiaries' queries

As part of its support programme, the National Foundation also applies an individual approach to beneficiaries through individual meetings and responses to queries by e-mail and by phone, and through a specifically designed platform for beneficiaries' queries. In 2020, the number of individual live meetings was reduced due to compliance with epidemiological measures, however, it was in a large number replaced by the module of individual meetings using remote digital tools. E-mail and phone were used to respond to several thousand queries, and since the introduction of the platform for beneficiaries' queries, in the first month of use alone **1000 queries were received and answered**. As part of the support programme, 27 individual meetings were held for 49 beneficiaries in total.

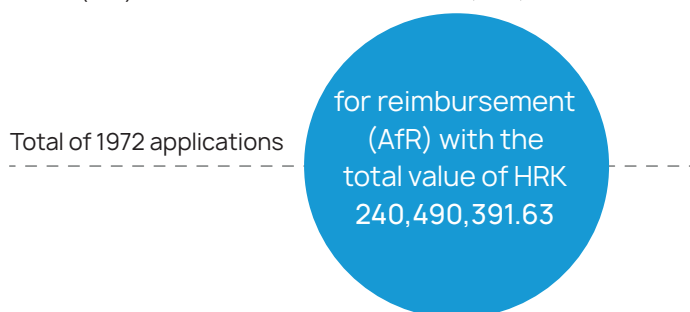

In 2020, 27 individual meetings were held for 49 beneficiaries in total.

These figures demonstrate great interest among beneficiaries and great need for support and technical information, while proving that the step forward with support programmes with beneficiaries has been recognised as the right step in the work of the National Foundation as IB2.

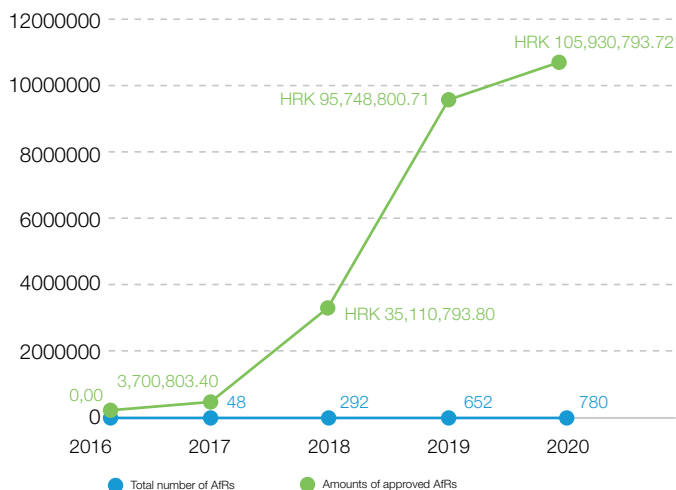

## Monitoring of programme implementation

### Approval of applications for reimbursement

As part of the Operational Programme Efficient Human Resources (OPEHR) for the period from 2014-2020, the National Foundation in the capacity of Intermediate Body Level 2, as at 31 December 2020 concluded a total of 1972 applications for reimbursement (AfR) with the total value of HRK 240,490,391.63.

The graph shows an increase in the total value of approved applications for reimbursement compared to 2019, in which the approved value was HRK 95,748,000.71. In 2020, the amount approved was 10.63% higher, i.e. HRK 105,930,793.72 in total. This increase is also significant because it was achieved in the times of the COVID-19 pandemic and devastating earthquake that had struck the Republic of Croatia in 2020. Despite the modifications and working conditions rendered extremely more difficult, the number of approved applications continued to increase, and compared to the baseline year of 2017, an extraordinary progress in approvals is evident.

As part of the continued digitalisation of the National Foundation’s operations, the programme “AfR analysis” which was set up in 2019 was additionally upgraded and improved in terms of functionality. The programme now allows for weekly and monthly monitoring of indicators of employee performance. The programme makes available data on the status of each case in real time, and in combination with the platform for beneficiaries’ queries, it is possible to have complete overview and supervision over the work and over all active AfRs and queries at any time.

Upgrades in the “AfR analysis” programme and establishment of a system in which work on AfRs is monitored in real time, as well as the introduction of employee performance indicators, have reduced by several fold the number of late AfRs and the time of delay in 2020. There still are delays, however a major part of them is caused by beneficiaries’ requests to submit AfRs later, which the system also records as delay.

Monthly monitoring of employee performance indicators, in addition to being systematically followed, is included in all business processes of the National Foundation and has resulted in a significantly improved dynamic of AfR processing. This has in turn contributed to the change in the organisation’s culture which, following organisational changes, has made an additional step towards an organisation focused on measurable objectives.

### Certification of expenditure for the European Commission

The total value of the National Foundation’s certified expenditure for the European Commission for the Operational Programme Efficient Human Resources (OP EHR) for the period from 2014-2020 is HRK 197,505,188.38 and this includes the certification of 1662 approvals of applications for reimbursement. For 2020, three statements of expenditure were submitted to the European Commission: Statement of expenditure no. 1 OG 2019/2020, Statement of expenditure no. 2 OG 2019/2020 and Statement of expenditure no. 1 OG 2020/2021. Overall, in those statements 925 applications for reimbursement were certified with the total value of expenditure of HRK 123,509,961.78. Compared to previous certifications for the European Commission i.e. the previous accounting year, the share of 925 applications for reimbursement in relation to 1662 applications for reimbursement in total represents a share of 55.65% of total certification for the European Commission in OP EHR 2014-2020. The total value of certified expenditure for 2020 is 123,509,961.78 in relation to the total certified expenditure in OP EHR

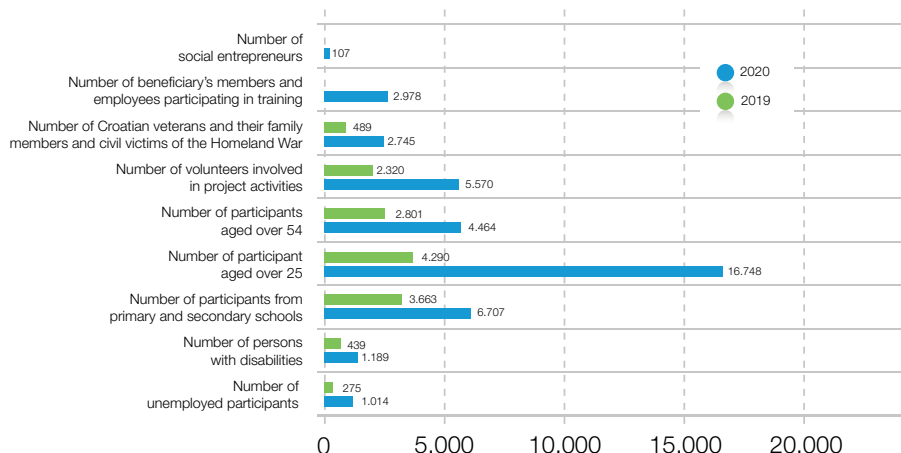

2014-2020 in the amount of HRK 197,505,188.38 represents a share of 62.53% of total certification of expenditure for the European Commission. Moreover, of the total of 780 approved applications for reimbursement with the value of HRK 105,930,793.72 for the European Commission 470 requests were certified in the total value of 63,504,822.07, while 310 requests in the value of HRK 42,425,971.65 were approved and prepared for subsequent certifications for the European Commission.

## Implementation indicators

Implementation indicators in 2020 were markedly better than those in 2019, and all values for target groups and beneficiaries increased several-fold in 2020. Especially prominent in an increase in the number of persons with disabilities, young persons and participants from primary and secondary schools who belong to the youth population that is represented in the implementation by as many as 16748 young persons. The number of volunteers and persons above the age of 54 almost doubled in 2020. Something similar applies to Croatian veterans and members of their families, with the number of participants in the implementation thereby quintupling.

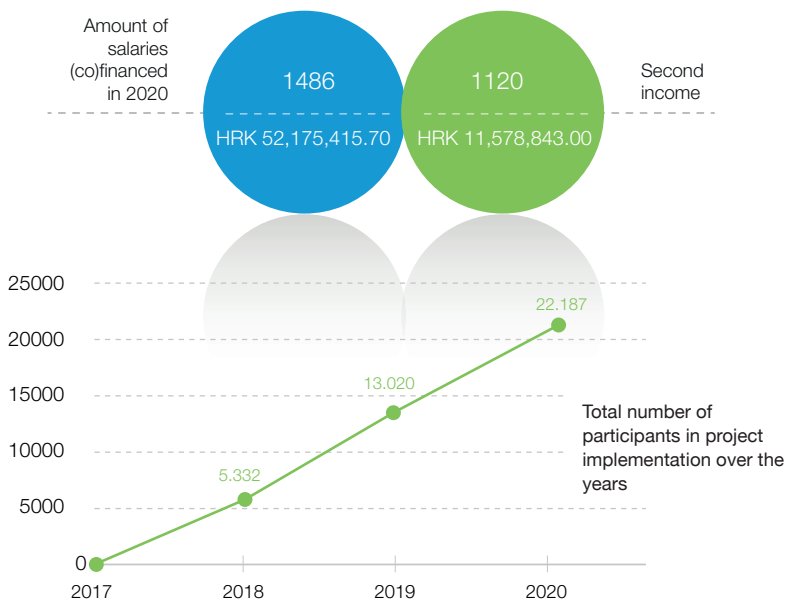

## Implementation indicators 2019/2020

For the purposes of this Report, data on all persons/end users who in any way participated in the implementation of activities were used, regardless of their verification in the microdata system, ie whether they represent an indicator or not.

Since 2017 as the baseline year, the number of implementation participants has been on the rise, reaching 22187 persons in 2020.

The amount of salaries (co)financed in 2020 was HRK 52,175,415.70, and the number of persons employed through projects: 1486. Moreover, the number of persons receiving a second income is 1120, with the total costs of second income of HRK 11,578,843.00. This data highlight the importance of the European Social Fund for the labour market in the Republic of Croatia, and show what share of the population is employed or receives additional income from ESF-financed projects.

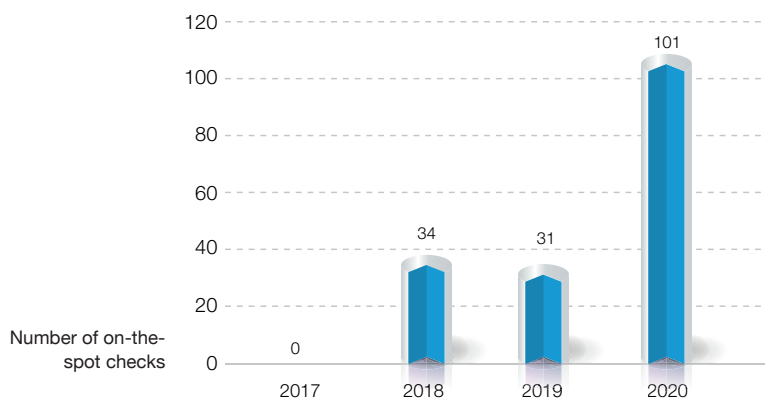

## On-the-spot checks

On-the-spot constitute both an obligation and a valuable tool for IB2 in monitoring project implementation. On-the-spot checks can be ad hoc, unannounced, when there are suspicions of irregularities or illegal behaviour, and regular, upon at least

a three-day's notice. During the on-the-spot check, financial and content elements of the implementation are checked, as well as documentation, evidence and beneficiaries' statements. A checklist is composed on the on-the-spot check which shows the result of the conducted check and any further actions that the beneficiary or IB2 are to undertake with regard to the implementation monitoring.

In 2020, the number of on-the-spot checks also increased, as shown on the graph. During 2020, 101 on-the-spot checks were carried out, while during 2019 there were 31. This represents an increase in executed on-the-spot checks of 225% compared to 2109.

## Information and communication technologies and informing

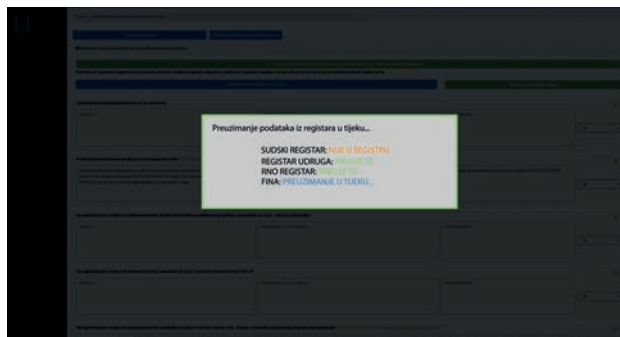

### Digitalisation of the department for EU programmes

Since its establishment, the National Foundation has been improving the civil society support system with constant technical innovations. In terms of grant making, this is evidenced by a whole series of innovations introduced or upgraded in 2020. All the tools described in this section have been developed independently by the National Foundation for the purpose of a comprehensive digitalisation of procedures.

### Contracting analysis

By developing the programme “Contracting analysis”, the National Foundation has made it possible to carry out a major part of administrative review of project proposals digitally. Namely, the programme is linked to public registers that contain information needed to check the fulfilment of formal requirements for applicants:

- Register of Associations
- Register of Foreign Associations
- Register of Foundations of the Republic of Croatia
- Register of Foreign Foundations of the Republic of Croatia
- Register of Legal Persons of the Catholic Church in the Republic of Croatia
- Register of Religious Communities in the Republic of Croatia
- Register of Non-profit Organisations
- Court Register

The system of digital review of eligibility requirements is connected directly to the official registers kept by the Ministry of Justice and Public Administration and the Ministry of Finance, and uses data from them and automatically compares them with the data contained in the project proposals submitted by the applicants.

Administrative review of the project proposal is carried out by a digital review of the electronic system developed in the procedure of grant awarding in order to provide for accuracy, transparency and to accelerate the grant awarding process. Upon administrative review, the applicant is sent a checklist which contains all results of the digital review of administrative requirements taken over by directly connecting to official registers. In addition to increasing efficiency, this additionally increased procedure transparency.

Stages in the digital review procedure:

- Uploading the application form into the system
- Retrieval of data from the registers
- Manual review of faulty applications
- Automatic generation of a memo

This has accelerated the procedure of administrative and eligibility review, and the possibility of error has been minimised. Through this upgrade the procedure has become more transparent, and the data obtained by the review are easily accessible for display and processing. Such an approach, especially in systems with a large number of applications and circulation of memos and data, represents a major step forward in the grant awarding system.

### Platform for beneficiaries' queries

After the long-standing practice of communicating with the beneficiaries via e-mail and phone, and prompted by the epidemiological situation and devastating earthquakes but also by the need for procedure digitalisation, question and answer traceability, and the need to create a knowledge base, in December 2020 the National Foundation set up a new platform for beneficiaries' queries.

Since 2020, beneficiaries can pose their questions in the form of a tab that is directed to the monitoring or grant department or officer who is in charge of the answer. The person in charge of providing the answer generates it and forwards it to the beneficiary through the system, and the beneficiary receives the answer in the form of an e-mail. It should be noted that questions and answers are recorded digitally and can be further processed.

## AfR analysis

As part of the National Foundation's continued digitalisation, the "ZNS analiza" (AfR analysis) programme which was set up in 2019 was additionally upgraded in terms of functionality. The programme now allows for weekly and monthly monitoring of employee performance indicators. The programme makes available data on the status of each case in real time, and in combination with the platform for beneficiaries' queries, one can have complete overview and supervision over the operations and all active AfRs and questions at any time.

The AfR analysis programme allows for a consistent implementation and compliance with the GDPR regulation, as each department manager has access exclusively to the cases that fall under their respective purview. Each entry of activity and access to personal data by the National Foundation's employees is recorded, which contributes to compliance with the data protection regulation.

## Continuous employee training in digital format

Following the COVID-19 pandemic and devastating earthquakes in 2020, it was not possible to adequately implement employee training programmes with physical presence in the training and traveling to separate locations. The National Foundation adapted to this obstacle by setting up a digital system for continuous employee training containing literature and information, through which employees can digitally access the material related to the work process and system.

This system, in addition to availability of material, allows for knowledge to be checked digitally and for monitoring of the level of knowledge and acquisition of information on the system.

Although training provided by experienced experts in the usual manner is not easily replaced, this method because of epidemiological measures allowed for availability of key information and insights to employees to be used in their everyday work.

## Reporting platform ESF\_Plus and ZNS\_Plus

Computer programmes ESF\_Plus (assessment tool) and ZNS\_Plus (tool for reporting on applications for reimbursement) were upgraded in 2020 by being placed on separate servers and additionally aligned to the procedures within ESF.

## Remote meetings

Very soon after the onset of circumstances caused by the pandemic and the earthquake, the National Foundation adapted its work and communication with the beneficiaries to remote mode by using various technical and digital tools.

Monitoring of the implementation of contracted projects co-financed from the European Social Fund with the National Foundation as Intermediate Body Level 2
